

Associate Data Collection Specialist

Who We Are

Advantage partners with the world's most ambitious suppliers and retailers to enrich business relationships and accelerate success. Advantage is a global expert in business measurement and benchmarking. Our benchmarks form the platforms for enriched relationships. We deliver independent insights that highly competitive suppliers and retailers need to step up to today's challenges, strengthen their business relationships and unlock growth and profitability that would have been inaccessible otherwise.

Who We Need

We are looking for a passionate and enthusiastic Associate Data Collection Specialist to join our Development Team. The Associate Data Collection Specialist should be a self-starter who assists in the accurate deployment of data collection vehicles for Advantage programs worldwide. We are looking for someone who is open to learning a lot at a very fast pace and has time management and prioritization skills. There is opportunity with this role to grow within the company depending on the career path chosen.

What You'll Do

- Participate in one or more aspects of survey design and delivery:
 - Survey programming
 - Broadcasting
 - Field Control
- Test surveys and related tools.
- Fix bugs in existing surveys.
- Implement requested changes to existing surveys.
- Assist with update and maintenance of Advantage field control tools.
- Provide technical support related to data collection and control.
- Document survey design processes.
- Assist in gathering, collating, and sharing business requirements.
- Work with Project Management teams and Intermediate/Senior Data Collection Specialists to understand collection requirements.
- Triage and create bug reports based on user input.
- Test the solutions to ensure they match the requirements.
- Stay up-to-date on latest data collection technology tools and innovations.
- Support continuous improvement initiatives.
- Perform any other tasks as assigned by your manager.

What We're Looking For:

- University Degree in a relevant discipline (data science, research methods, business, computer science, etc.).
- Or, College Diploma (or equivalent) in any IT-related discipline.
- Experience in MS Office and Wiki.

Your Characteristics:

You must have:

- Knowledge in Internationalization and localization
- Understanding of Internet architecture
- Knowledge in Data modeling and Confrimit Survey programming, such as HTML, CSS, JavaScript/JQuery.
- Understanding of Research Methodology, such as Collection methods (CAWI, CAPI, CATI), sampling methods, survey best practice
- Intra- and inter-team Communication; written and verbal skills: documentation, presentation and facilitation

You must be:

- A creative thinker: the ability to come up with novel solutions to established problems
- A critical thinker: the ability to grasp client needs and consider practical solutions
- A future thinker: the ability to streamline approaches and create ease for new applications

Why Should You Work for Us?

Advantage offers an excellent work-life balance, including the following:

- Central downtown location near King subway station
- Stable company, with an established client-base that will be sustained and grow because of its vision and strong leadership
- Friendly and open caring culture: social events, comfortable work environment
- Passionate team members who care
- Fast paced youthful environment

To apply, send your cover letter and CV to our Human Resources Team at resume@advantagegroup.com

We thank all applicants, but only those with relevant qualifications will be contacted.
