

Operating at my best...

VIRTUAL WORKSHOP

Our working context is changing rapidly and will continue to evolve over the coming weeks and months. You are likely to be working in new and different ways. **In this workshop we will be taking a deeper dive into your Hogan personality assessment results.**

You will get a chance to reflect on your day-to-day style, under pressure coping strategies, and values. This is particularly important during periods of change and uncertainty to help us to review what is 'working' versus 'not working'. The facilitator will support you in translating insights into actions to ensure you come away with a clear understanding of what will help you to adapt and remain effective in your new and evolving context.

The Winsborough team can help you to be the best "you" that you can be 'at work'. With more than 20 years' experience in the industrial-organisational psychology industry our team have both practical experience and scientific theory to support you in managing yourself and your work at home.

"I think the Hogan assessments are excellent and Winsborough are the experts in this tool."
