

Transitioning back to work...

VIRTUAL WORKSHOP

Many organisations have made the sudden switch to remote work and, as isolation requirements ease, we are expecting many team members to quickly revert to working back in the office 'as usual'.

These transitions can be stressful for both leaders and team members, but there are some straightforward steps leaders can take to overcome difficulties and maintain the continuity of the business.

This workshop is tailored to your context. It will ensure leaders understand the range of reactions and behaviour changes they can expect when transitioning their team back to work. It will help them put together an action plan to provide their team members with the three essentials for a smooth and supportive transition:

- Physical safety,
- Clarity and certainty, and
- A sense of control

The Winsborough team can help you to be the best "you" that you can be 'at work'. With more than 20 years' experience in the industrial-organisational psychology industry our team have both practical experience and scientific theory to support you in managing yourself and your team.

Smoothing the transition

If you'd like to learn more you can register for Winsborough's **Transitioning back to work** virtual workshop (one-hour).
