

LIGHTWEIGHT MACHINE IS PORTABLE FOR QUICK AND EFFICIENT SPOT REMOVAL

RECOVERS MORE SOIL & DIRTY SOLUTION FASTER TO SHORTEN DRYING TIME

SOLUTION TANK DETACHES FOR EASY DISPOSAL OF DIRTY WATER

**GOTCHA!** | PORTABLE CARPET SPOTTER

# GOTCHA! | PRODUCT FEATURES

The Gotcha! is designed for spot removal and carpet maintenance operations that require maneuverability, efficiency, power and hassle-free, one-person operation. The compact and lightweight machine is portable for quick and efficient stain removal. The Gotcha! recovers more soil and dirty solution faster in order to shorten the drying time. It can be rolled on 4" wheels or carried via the built in strap or handle. The large two gallon solution/recovery tanks allow for cleaning multiple spots before refilling and detaches for easy disposal of dirty water. The easy-to-use two-position switch allows the user to choose from vacuum only mode or dual action vacuum/pump mode and the 4" clear handle allows the operator to see soil and residue being extracted. This machine features a 1.12 hp vac motor that creates a 71" waterlift at 80 CFM and contains heavy-duty Viton™ seals that are impervious to the "new generation" chemicals available today. The ground fault circuit interrupter shuts off the machine in the event of an electrically hazardous situation in order to protect the operator from electric shock. The Gotcha! has optional accessories including an ET extraction tool, transport cart, chemical spotting kit or Gotcha! shampoo.

## GOTCHA! TECHNICAL DATA

Voltage	115 / 230 V	Construction	Rotationally Molded Polyethylene
Vacuum Motor	1.12 hp	Hand Tool	4" width
Waterlift	71"	Solution/Vacuum Hose	8'
Air Flow	80 CFM	Switch	2 position (vacuum & vacuum pump)
Solution Pump	50 PSI	Dimensions (LxWxH)	19" x 8.75" x 17"
Solution Tank	2 gallon	Weight	19 lbs
Recovery Tank	2 gallon	Wheel Diameter	4" (2)
		Cable	25', 18-3 with GFCI

## ABOUT US

Hako is one of the leading international manufacturers of superior sweepers, scrubbers, footpath and street cleaning equipment and vacuums for commercial, industrial, municipal and grounds cleaning markets.

Hako Australia is a fully owned subsidiary of Hako-Werke Germany. With sister companies in the USA Minuteman and Powerboss, coupled with the local Australian brand Rotobic, our complete product offering ensures there is a suitable machine for every customer application.
