

# THE ONLY WAY TO ENGAGE AT EQUITY CONFERENCES

Go paperless, track delegate activity, and ensure data is secure with an award-winning branded app for your events.

All your event app essentials covered, from Personalized Agendas to Analyst Profiles to Sessions, plus real-time analytics for improving event performance.

## ➤ Personalize the Experience

Save money on paper guides. With mobile, delegates can filter through presentations and one-on-one meetings to create their own personalized agendas and see where they need to be next.

## ➤ Get Security You Can Trust

Rest assured you're getting the most secure platform using the delegate's own device. Our strict data privacy and ongoing Veracode® reviews are audited and approved by top enterprises globally.

## ➤ Know Who's Attending What Sessions

Track attendance by scanning badges right from your mobile device as delegates walk through the door. This provides an easy way to learn about your delegates' interests and the most popular sessions.

## ➤ Understand Your Event Inside And Out

Make informed decisions with actionable event insights. Identify the most popular research papers so delegates can be contacted for votes. You now have more data at your fingertips than ever before.

## Keep All Your Events in One Branded App

### EVENTS
