

HASSLE-FREE ATTENDANCE TRACKING

Eliminate the hassle of managing badge scanning equipment. Know exactly who's attending by scanning badges right from your mobile device.

Introducing a new way to record attendance for continuing education, general sessions, compliance tracking, and much more.

➤ Unlimited Users, One Event App

Why rent additional equipment? Track session attendance using the same mobile event app you already have. Designate an unlimited number of staff members to access attendance tracking right from their own mobile devices.

➤ Get Complete Attendee Information

All the essential reporting you need, so you know exactly who attended which session at what time. As your staff members scan, attendee reports are updated instantly, so you can export lists from the Content Management System whenever you want.

➤ Scan Quickly and Seamlessly

With large crowds awaiting each session, there's no time to spare. Your staff members will simply navigate to the session in the event app and tap a button to get started. Scanning happens instantly so each attendee can move quickly and seamlessly through the door.

➤ Plus, Increase Attendee Engagement

Get more than just attendance information. Once attendees are scanned, they'll see surveys for that session promoted at the top of the social feed. Make it convenient for attendees to give you feedback, and your survey completion rates will increase in no time.
