

STEP 1. Attach Monitor to Arm

Fasten mounting plate "A" to swivel bracket "B" using (4) #10 flat washers and (4) 10-32 hex nuts provided.

STEP 2. Cable Connections

Connect the antenna cable to the "ANT IN".

Connect the power cable to "DC 12V".

For computer operation connect computer VGA cable to "PC/D-TV INPUT" and audio cables to "L AUDIO R".

STEP 3. Cable Cover

Attach cable cover "C" to swivel bracket "B". Insert tabs "D" into slots "E", being careful to not pinch any wires. Align (4) holes in "B" and "C". Install (4) 8-32 x 3/8 Phillips head machine screws.

NOTE: POWER SWITCH

Some models are equipped with a hidden power switch that is located on the lower left side of the display. If so equipped, turn the rocker switch to the ON position after installation.
