

Bottom view of Z13 tv.

Purpose: Block access to internal/external audio speaker switch.

1. Turn TV on and set the "hidden" audio speaker switch to either internal or external as desired.
2. Glue the large rectangle to position #1, to cover rect. hole
3. Glue "T" piece to position #2, as shown by dashed outline.
4. Rotate small rectangle as shown and glue to position #3. (This piece should fit tightly into the slot.)
