

The model PD240-410 VCP Mount is specifically designed to mount the model PDI-VCP-KIT to the wall casting directly beneath the arm.

1. Remove the bottom wall bracket mounting bolts from the wall casting.
2. Position the VCP Mounting Tray over the wall bracket holes and attach with the mounting bolts removed in step 1. Tighten both bolts.
3. Place the VCP on the tray.
4. Attach the security strap to the VCP tray using four 8-32 pan head screws.
5. Connect the VCP per VCP instruction sheet.
