PDi Wireless Keyboard

Sealed Healthcare-Grade Wireless Keyboard with Touchpad

The PDi Wireless Keyboard is the perfect navigation partner for patients to control Interactive Patient Systems (IPS) on their entertainment display device.

Remove cord clutter with this QWERTY keyboard and trackpad while controlling infection exposure and limiting hospital acquired conditions (HACs) with the sealed keys design that holds up to rigorous cleaning.

Simply plug the USB dongle into the PDi Module for Android™ that is attached to any display. The keyboard automatically pairs and is instantly ready for patient use.

Healthcare Features

- Wireless with 32 Foot Control Range
- Antimicrobial and Sealed Keypad
- Durable to withstand repeated cleaning
- USB Pairing Dongle
- Dimensions inches (WxHxD): 11" x 8.5" x1"
- Weight 6lbs
- Powered by 3 AAA batteries with an estimated 3 month life span.
