

COVID-19 Coverage for Employees

Proposal of assistance for
employees

APRIL 2020

COVID-19 Coverage for Employees

Providing additional support for your employees

Covid-19 has had a global impact over the last few months and has fundamentally changed our way of life and our way of working.

Employers are facing concerns about employees' health and safety, and the impact of the pandemic on their lives from a wellbeing, financial and mental health perspective.

Most employers are adjusting their operations to support telecommuting and social distancing requirements and have to manage workforce challenges arising as a result of this.

COVID-19 Coverage for Employees

Peace of Mind for Employers

Uncertainty about the future is likely to heighten anxiety and impact on employees' engagement and productivity.

- Employers need to be putting their people first during this time of uncertainty. Focusing on the employee experience and providing support to alleviate anxiety is key.
- By supporting your employees' health and wellbeing you maintain a healthier workforce which encourages employee engagement and reduces absenteeism.
- For employees, knowing that their employer is actively looking for ways to provide additional support can help alleviate these fears and encourage employees to remain optimistic, productive and engaged. This also builds loyalty over the long term.
- Protecting your employees' health, financial and emotional wellbeing can minimize the risk of workforce losses as a result of the pandemic.

COVID-19 Coverage for Employees

Benefits for your employees

Mercer Marsh Benefits are able to deliver a solution to employers that provides much needed support to their employees during this time of need.

We want to provide our clients with the opportunity to ensure that their employees are safe in the knowledge that during this challenging time, their employer is supporting them every step of the way throughout their treatment and recovery process.

There are three levels of support that you can provide for your employees:

- Should your employee be positively diagnosed with Covid-19, they would receive a once-off amount of **AED 500** that could help alleviate any immediate financial worries and provide them with some comfort whilst they are in recovery and treatment.
- If your employee needs medical care due to Covid-19 and is admitted to hospital, they would receive **AED 2,000 every day for up to 10 days** they spend in hospital.
**for any hospitalization due to Covid-19, not necessarily ICU, up to a maximum of 10 days*
- In the event of a Death due to Accident, you can provide much needed additional support through a once-off cash benefit of **AED 5,000**.

COVID-19 Coverage for Employees

COVID-19 Coverage for Employees

We are giving back

Coming together to support our clients, our colleagues and our communities during this time of need is important to us.

Being a leader means sharing in our strengths and harnessing our collective power to give back when and where it matters the most.

We are donating 50% of our revenue from the Covid-19 Coverage product to support charitable organisations and causes in the United Arab Emirates that are related to the outbreak.

The impact of Covid-19 on our people and our communities is undeniable and the future is still uncertain, but if we all come together, we can make a difference.
