# REDUCE RISK & ENSURE OSHA COMPLIANCE

## Increase Safety with These Solutions:

**Safety Belt**

OSHA Section 5(a)(1): Seatbelts prevent operator fatalities during a tip over.

**Headlight**

OSHA 1910.178(H)(2): In lighting less than 2 lm PSF, headlights must be installed.

**LED Strobe**

Strobe lights capture the attention of nearby pedestrians and forklift operators.

**Horn**

OSHA 1926.602(a)(9)(i): Requires that forklifts shall be equipped with a horn.

**Mirror**

OSHA 1910.178(n)(6): Enable rear view visibility to avoid potential accidents.

**Blue Light**

LED lights capture the attention of nearby pedestrians and forklift operators.

**Back Up Handle**

Reduces back strain and keeps hands inside the operator compartment.

**Fire Extinguisher**

First line of defense in case of forklift or warehouse fire.

**Clear Cap Overhead Guard**

OSHA 1917.43(e)(1)(ii): Overhead guards shall not obstruct the operator's view.
