- Worklists- Individual & Pooled

Benefits

Less Hardware > More Hardware – With no servers to maintain, you don't pay for what you don't have.

Less Fear > More Fear – Our software application and data center are SSAE 16 and PCI-DSS certified. Your data is safe and secure and we've got the certifications to prove it.

Less Tedium > More Tedium – With advanced automation WebAR eliminates repetitive time sucking tasks and lets you optimize your human capital.

Less Hassle > More Hassle – With Open Vendors you have the freedom of choice with dialer, letter, enrichment and payment vendors. This means you get the service you need at the price want. You're never locked in.

Less Hard > More Hard – With an easy to learn user interface you can train your collectors on WebAR in hours not months.

Less Unknown > More Unknown – With our dashboards you can visually see what's going on in your business in real time. Make adjustments on the fly and optimize productivity.

Less Rock and a Hard Place > More Rock and a Hard Place – WebAR was built from the ground up with customization in mind. Many modifications are easy and free to implement, so you're never stuck between a ... well you know.

Accessories

Extend your WebAR portal capability with custom Accessories

Accessory	Description
Account Forwarding	Easily forward accounts to multiple agencies and/or collection attorneys with integrated management and tracking tools
Client Access	Provide real-time access for your clients. Features include, account auditing, reporting, secure file transfer, new account assignment and much more
Virtual Agent Collector	Our patented Virtual Agent will provide the consumer easy access to account resolution tools
Virtual Agent Avatar	Choose from our cast of preconfigured avatars or design one of your own
Advanced Reporting (SQL)	Design your own customized reports, acknowledgments, inventories, performance and tracking reports
Form Builder	Customize WebAR by designing your own forms and user definable data elements. Form Builder is fully supported by Data Importer and Action Paths
Credit Card BIN Database	This feature will allow your company to specifically define the card type (debit or credit) and the card issuer. This is a service your clients often require for internal and web payments
Additional Users	Easily add new users to your portal. No need to wait to place an order when you add a user WebAR just updates your billing automatically.
Additional Storage	If you are storing large number of documents, you may need to add some room. This also helps control costs by adding space only when you need it
Credit Reporting (Metro 2)	Credit reporting to one or more bureaus is easy with our integrated service. Build and send your files right from WebAR.
Electronic Letter Service (ELS)	Why send snail mail when most consumers and clients prefer email. ELS is an easy way to cut postage costs and save precious days in communication time.
