WEBAR
VIRTUAL AGENT COLLECTOR

Our cloud-based Virtual Agent Collector is designed to guide the consumer through a carefully tailored dialog to achieve the best and most profitable collection result.

The Virtual Agent Collector will increase your revenue from on line payments by 50% or more.

Features

- Optional Virtual Agent avatar

- Configurable Real Time Decisioning Engine

- Accept Credit Cards & ACH payments

- Integrates with your current website without modifications

- Create payment plans within the guidelines you define, either predefined or constructed in real time

- Create custom settlement offerings based on client, status, balance, age or other data elements

- Gather customer information to aid in future collectability such as phone numbers, addresses, employment information and more

Benefits

- Works 24 hours a day, 365 days a year with no breaks, vacations, benefits or paychecks

- Reduce human resource costs and improves your bottom line

- Increase in on-line payment revenue by 20 – 50%

- Frees up your collectors and CSR's for other tasks

- Collect up to 50% more dollars per session

- Reduce account handling time by gathering information on disputes, bankruptcy and insurance rebilling

- No FDCPA violations, the Virtual Collector always follows your company policies

- Correctly calculates payment plans and settlements

- Optimized for mobile devices to reach more consumers

- Studies have shown that nearly 90% of all debtors would prefer an on-line agent to talking with a live collector; give the consumer what they want and you'll get what you want
