

DuraLife™

SAFE, DURABLE DECKING SYSTEMS

Inspired by Nature. Built to Last

**Step up to the DuraLife Poly-Pro Advantage™
for Proven Performance & Durability**

Which Composite Decking is Right for You?

DuraLife has a decking product to meet your specific design needs.

Whether its the beauty of our Siesta Hardwood Blends Collection, the wide variety of colors of our Siesta Solid Blends Collection, or the value and performance of our new MVP decking, all DuraLife products are built from a unique, durable, and proven polypropylene and hardwood capped composite that will provide you and your family with years of enjoyment and satisfaction.

PAGE 7	PAGE 5	PAGE 3

Ordinary decking products can stain with every spill and will fade over time, but DuraLife' capped surface is highly resistant to stains, mold, and color fade.

DuraLife's PolyPro Advantage

DuraLife's Unique Polypropylene & Hardwood Composite Outperforms Other Composite & PVC Decking Products.

Unmatched Strength

DuraLife™ decking minimizes sagging & flex between joists; improves overall aesthetics and structural integrity.

Safe & Stable

More solid under foot for added safety; less slippery, even when wet.

Stain & Fade Resistant

Co-extruded polypropylene outer shell resists everyday spills and normal wear & tear. UV inhibitors provide added color retention.

Mold & Mildew Resistant

Resistance to mold & mildew growth; improves aesthetics and safety, with little maintenance.

Moisture & Thermal Resistant

Excellent moisture and thermal resistance; minimizes problems commonly associated with expansion and contraction.

The Colors You Want

Available in an array of beautiful colors; allows you to customize your own outdoor living environment.

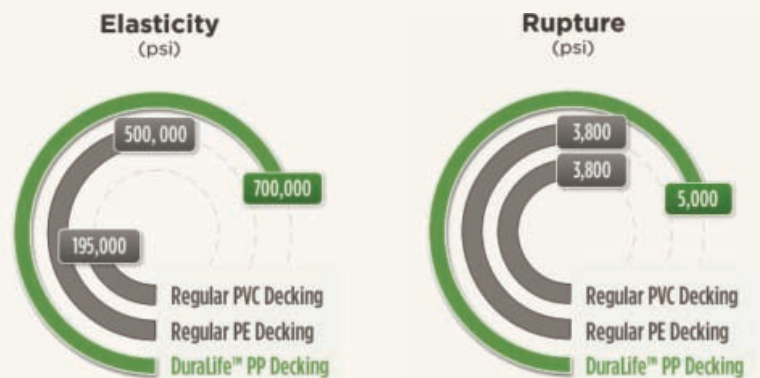

25-Year Warranty

25-year limited product performance warranty includes stain and fade resistance.

DuraLife™ Outperforms the Competition

A deck board's Modulus of Elasticity (MOE) and Modulus of Rupture (MOR) are good indicators of its ultimate performance and resistance to flex or sagging between joists. The higher the value, the better its performance.

*Data reflects actual DuraLife™ Siesta decking test results and an aggregate of other manufacturers' published data.

DuraLife™
Siesta™
Collection
HARDWOOD BLENDS

DuraLife's Hardwood Decking boards offer the beauty of finished tropical hardwood. They come in four natural, easy-to-maintain earth tones.

DuraLife™ Siesta™ Hardwood Collection's ColorLock™ Multi-Layered Finishing System helps resist fading over time, unlike ordinary composite decking products.

Ordinary decking products can stain with every spill, but DuraLife™ Siesta™ Collection is highly resistant to stains, so clean up is quick and easy with just soap and water.

fastenator™

The Fastenator Hidden Fastening System provides a clean and beautiful surface and it's easy to install.

Golden Teak

Tropical Walnut

Garapa Gray

Brazilian Cherry

"Our Siesta Hardwoods Collection decking features variegated, non-repeating wood grain that allows you to create your own custom outdoor oasis."

Color: Golden Teak

DuraLife™ Siesta™ Collection SOLID BLENDS

Our eco-friendly decking is available in 7 contemporary, easy-to-maintain earth tones.

DuraLife™ Siesta™ Solid Collection is available in a wide range of earth-tone colors to complement any outdoor living space. Siesta™ Collection's ColorLock™ Finishing System helps resist fading over time, unlike ordinary composite decking products.

Ordinary decking products can stain with every spill, but DuraLife™ Siesta™ Collection is highly resistant to stains, so clean up is quick and easy with just soap and water.

DuraLife™
MVP
Decking
MAXIMUM VALUE & PERFORMANCE

DuraLife™ MVP Decking provides Maximum Value & Performance

Our new DuraLife™ MVP decking provides a unique combination of value and performance. Made from the same durable composite as our premium Siesta™ Solid and Hardwood Blends decking, DuraLife™ MVP is the perfect choice for value conscious homeowners looking for a great looking, ultra-low maintenance deck board at an affordable price.

Save money without sacrificing on performance or durability.

Face-screw installation using color-matched, capped composite deck screws provides greater savings per square ft. vs. hidden fastener clip systems.*

● **NEW COLOR**

Spanish Cedar

Saratoga Brown

Greenwich Gray

* Similar to Starborn® Cap-Tor xd capped composite screws or the CAMO™ hidden fastening system

“Our new DuraLife™ MVP™ decking is the perfect choice for value conscious homeowners looking for a great-looking, ultra-low maintenance deck board at an affordable price.”

DuraLife®

RailWays®

Universal Railing Collection

The Perfect Complement to your Deck

When you add RailWays® Universal Railing to your wood or composite deck, you can rest easy knowing that you're adding hours and hours of care-free enjoyment in a beautiful and safe environment.

Because it's made from a durable co-extruded, capped composite material, RailWays® Universal Railings won't splinter or lose strength from rotting over time like wood can and it's easy to maintain. In fact, it's covered by a 25-year limited residential warranty.

Our Uni-Ball™ baluster connectors and railing hardware make installation a snap. And with a standard palette of eight colors and our exclusive Nightscapes™ recessed lighting system, you can customize the look and feel of your own deck project.

Why trust your family's investment to anything else?

Add a touch of color and individuality to your deck

- Designed for use with all brands of decking.
- Eight standard colors to match or accent your decking.
- Available in 36" and 42" rail heights and 6' and 8' railing lengths*.
- Blank rails (non pre-drilled) are available for use with glass panels, cable rail systems, or metal balusters.
- 25-year Limited Residential Warranty**.

*Railing length is measured from center of post to center of post.

**See ltd. warranty for complete coverage and restrictions.

Note: It is difficult to reproduce the color clarity of these products. Before selecting your color, please ask to see actual samples.

Uni-Ball™ connector - installation a snap!

Our proprietary Uni-Ball connector and railing hardware makes installation a snap and creates an impeccable look.

Post Sleeve Attachment

Railways® 5x5 post sleeves simply slide over standard 4x4 wood posts that are securely attached to the deck framing.

Railways® Structural Post Mount

Railways® Structural Post Mounts may also be used with our 5x5 post sleeves and are attached directly on top of decking (using surface mount kit & blocking). Mounts fit both 36" & 42" rail heights.

Accessories

NiteScapes™ Recessed Lighting

Choose DuraLife™ RailWays® exclusive recessed lighting system. It's safe and installs easily within the railing for a neat, clean look and 24/7 enjoyment.

- Recessed LED Lights.
- 8' Wire Lead on Every Light.
- Corrosion Resistant.
- Up to 80 Lights per Transformer.

Matching Post Caps and Collars

Finish your railing in style with our post caps and collars. Accent or match your railing for consistent, superior aesthetics and a years of enjoyment.

One Rail Kit, Multiple Applications

Our unique rail kit is designed to accommodate all of your railing needs, just change the hardware!

Level Rail Bracket

Angled Rail Bracket

Stair Rail Hinged Bracket

Docks & Boardwalks

DuraLife™
Dock Collection

Stands tough against all sorts of weather conditions

DuraLife™ Dock & Boardwalk planks feature capped composite technology protection. It's the first dock plank with a unique, co-extruded layer that provides added resistance to mold, mildew, stains, weather, wear, and fading.

The heavy-duty profile spans 24" and is designed for both commercial and residential marine applications.

DuraLife™ Dock Planks are rugged and feel very stable, with 24" on-center supports.

- They contain no harmful chemicals to leach into the water.
- Manufactured using recycled materials — eligible for LEED®-based projects.
- Proven co-extruded, capped surface protection on all four sides.
- Deeply embossed wood grain that has excellent traction, even when wet.
- Available in Coastal Grey. Custom colors (see Siesta Solid Collection colors) are available for larger projects.
- 16 ft. standard length. Custom lengths are available for larger projects.

*"Perfect for Docks, Floats,
or Boardwalks"*
