 **SIMONTON**
Reflections

Be greeted by an
inspiring splash of sunlight.
Be greeted by a symphony of style.
Be greeted by an energy bill that
makes you want to sing.

What's more important, performance or style? Saving energy or money?
When you choose Simonton Reflections® 5500 windows for your home, you get both.
Because every time you look out of your window, you're saying hello to enhanced
structural integrity, impeccable style, and improved energy conservation.
Not to mention a few extra bucks in your pocket.

When you can't tell the difference between a style element and a strength component, we know we've created the perfect window.

Thoughtful design and exquisite detail extend beyond the surface. They run deep into the core of your Simonton Reflections® 5500 windows. Every tasteful appointment and advanced feature has been scrutinized to deliver breathtaking aesthetics with unsurpassed structural and thermal performance.

Elegant charm

Colonial Casement

Whether you prefer the understated, traditional look of the classic or the unique, confident look of the contemporary, your Simonton Reflections® 5500 windows will add timeless elegance to your home.

- :: Available in Double Hung, 2-lite Slider, 3-lite Slider, Casement, Colonial Casement, Awning, Picture, Bay, Bow, and Geometric shapes, including Half-round, Quarter-round, Eyebrow, Trapezoid, Circle, Oval, Octagon, and custom configurations to accent your unique style
- :: Exterior color-matched glazing creates a smooth transition between the glass and sash frame

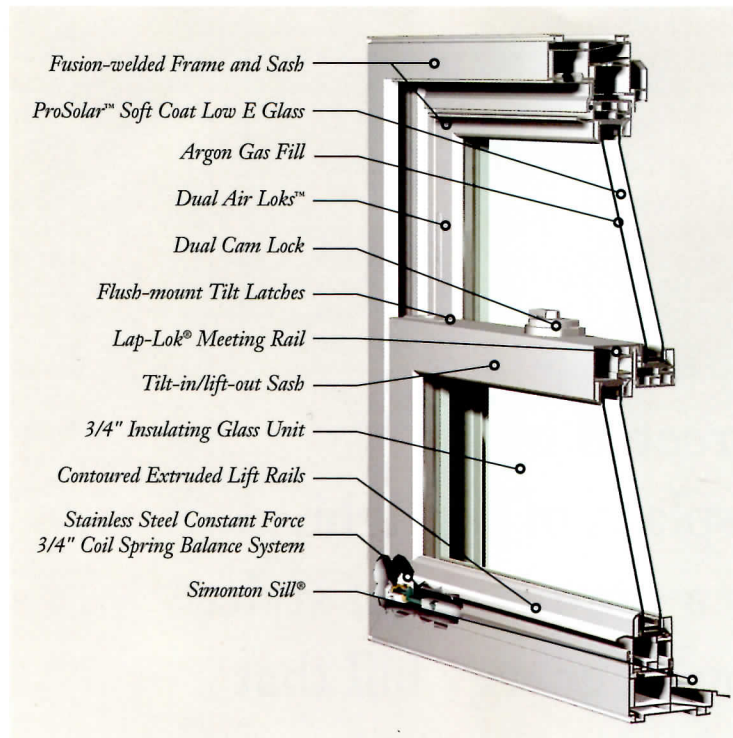

- :: A wide variety of color options and grid styles provides the look you want
- :: Tilt-in/lift-out sash promotes easy cleaning (Double Hung only)

Environmentally friendly

Every Simonton Reflections® product is designed to meet specific GreenSpec® criteria set forth by Building Green, Inc. Made from pre-consumer recycled content, each window and door is exceptionally durable and requires little maintenance. What's more, they reduce heating and cooling costs and provide exceptional noise control. This constant push to make every product more energy efficient and environmentally safe allows you to feel more comfortable in your home. And more comfortable in your decision to support a cleaner planet.

Superior structure and strength

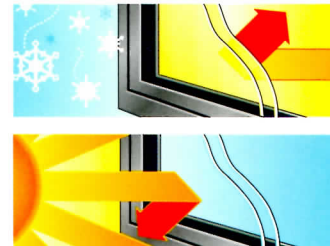

Manufactured under the most demanding quality-control system with the most advanced technology, every Simonton Reflections® 5500 window is constructed of the finest materials for superior strength.

- :: Fusion-welded frame and sash construction provides rigidity for increased strength and weather resistance
- :: Denny Clip™ pivot system locks securely into the base to maintain perfect alignment of the sash for smooth operation
- :: Stainless steel constant force 3/4" coil spring balance system never needs adjusting and will keep window securely in an open position

Maximum efficiency

Simonton Reflections® 5500 windows incorporate advanced thermal features that make homes more comfortable and help lower energy costs. From the ProSolar™ soft coat Low E glass to the innovative spacer systems between the panes of glass, we spare nothing to give you superior energy efficiency.

- :: Dual fin seal weatherstripping around the sash perimeter and triple weatherstripping at the head and sill provide superior protection from outside elements
- :: Lap-Lok® meeting rail overlaps and interlocks the top and bottom sash to create a tight weather-resistant seal
- :: The 3/4" insulating glass unit with U-channel Intercept® spacer system lowers conduction rates to enhance thermal protection

- :: ProSolar™ soft coat Low E glass with an Argon gas fill meets ENERGY STAR® guidelines and reduces heat loss in the winter while maintaining air-conditioned air in the summer
- :: The Simonton Solar System™ optional glass package takes efficiency to the next level with a double-strength 1" insulating glass unit, Super Spacer®, two ProSolar™ soft coat Low E glass surfaces, and a Krypton gas fill

As you stand in front of your window, take solace in knowing we're standing behind it.

We know buying windows is a big investment. An investment you want protected. That's why we back all Simonton Reflections® windows and doors with a comprehensive warranty covering vinyl, hardware, screens, and insulating glass units. And, since all warranties are transferable, your windows add yet another great selling feature for any prospective home buyer.
