

Rapid Revenue Cycle Assessment

A ROADMAP TO DRIVING FINANCIAL IMPROVEMENT

The revenue cycle is a complex group of processes containing many gaps, risks, and challenges. While most organizations strive to effectively manage the revenue cycle, the truth is that every revenue cycle has opportunity to improve. In fact, every day that organizations operate without an optimized revenue cycle can potentially cost them millions of dollars that could be invested in strategic initiatives and improving patient care.

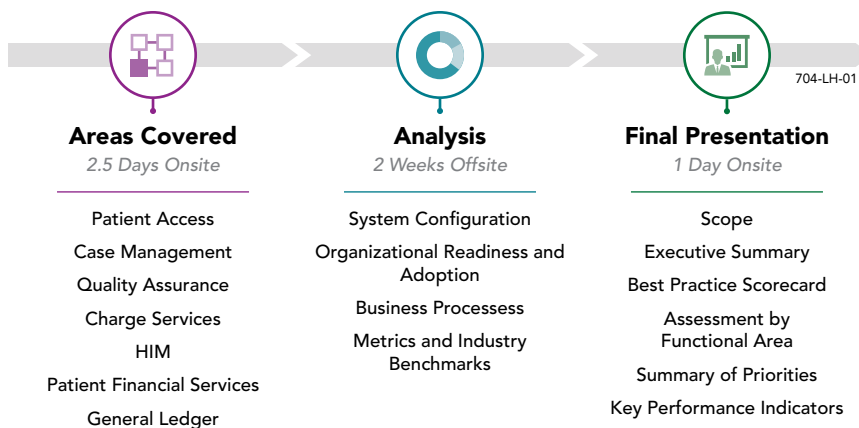

WHY DO A RAPID ASSESSMENT? MEASURABLE ROI

Revenue cycle optimization is one of the few areas in healthcare that can yield a quantifiable return on investment. Our Rapid Revenue Cycle Assessment is designed to specifically identify high impact opportunities for improvement and develop a roadmap that will:

- ▶ Improve net revenue
- ▶ Accelerate cash recovery
- ▶ Increase billing service efficiency
- ▶ Reduce cost to collect

HOW WE DO IT? RAPID, LOW RISK METHODOLOGY

Through a series of targeted interviews and analysis, our team will conduct a structured assessment that requires minimal time from your organization and covers the full revenue cycle continuum.

Contact us to learn more about how you can quickly start to improve your financial performance!
