

MEDITECH Expanse Implementation Services

Expertise and Value for Your MEDITECH Expanse System

Leidos Health is a certified MEDITECH Expanse consulting firm. We have a proven track record working with MEDITECH and our customers to bring expertise, tools, and advisory services that add value to your organization. We're committed to your success, and to helping you improve efficiency and patient outcomes with your Expanse system.

We have invested heavily in robust tools and methodology, best practices and lessons learned, as well as pre-implementation leadership strategy sessions to help your organization get the most from your Expanse system investment. Working with our team allows you to:

Set the Course for Success

- ▶ We offer a Pre-Implementation Assessment to determine your current system efficiency, and identify opportunities for improvement
- ▶ Our Foundational Leadership Work Session helps educate and gain leadership consensus on the foundational implementation success factors for your organization
- ▶ We keep leadership informed and engaged through our exclusive strategy management tool that provides customized roadmaps, status dashboards, and real time views of critical milestones and risks

Maximize the Value of Your Expanse System

- ▶ Our consultant team has proven 6.1 experience and expertise across clinical, financial and technical areas
- ▶ We leverage our experience, robust tools, and commitment

to your success to help maximize the value of your Expanse technology and investment

- ▶ We can scale to meet your unique needs and have the size to support multiple Expanse implementations

Gain the Subject Matter Expertise You Need

- ▶ We draw on our extensive experience delivering more than 1,675 unique MEDITECH engagements to more than 200 provider organizations from small community hospitals to large IDNs
- ▶ We have more than 80 MEDITECH consultants with an average of 20 years of healthcare and healthcare IT experience
- ▶ With expertise on 6.1 and all other MEDITECH platforms, our approach is designed to provide transparency and collaboration through every phase of the implementation

Leverage Advanced Project Management Support

- ▶ We have aligned MEDITECH's methodology with our own project management methodology and best practices to create a master project plan with detailed application project plans
- ▶ Our methodology includes executive dashboards, documents, and deliverables for every phase of the implementation

Accelerate Clinician and Physician Adoption

- ▶ We provide physician and clinician consultants who understand workflows and know how to get the most from MEDITECH software
- ▶ We leverage the experience and tools of our dedicated go-live practice to develop effective training that greatly improves CPOE and PDoc adoption

INVESTED IN YOUR SUCCESS!
