

PrintShop Mail Connect

OL™ Software

Because personalisation sells

Create, print and email data-driven promotional communications

The call-your-customers-by-name software

PrintShop Mail Connect is a standalone multichannel communications tool for all your personalisation needs that's easy enough for beginners, yet provides advanced capabilities for experts.

Build your promotional communications for print and email within the same tool, without having to do the work twice.

With PrintShop Mail Connect, merge any design with any database and create fully personalised direct mail pieces along with rich HTML emails targeted to your recipient's profile.

Personalised messages, images and color make the communication more relevant and thus increase the lifetime value of customers.
