

## CONTRAQER CHANNEL: A Procurement Management Cloud Service to Automate Your Business' Entire Procurement Process

Contraqer Channel is a procurement management cloud service that automates the entire buy-side and sell-side procurement process for public sector contractors, including: managing customer RFQs, comparing vendor pricing, managing & approving margin, and delivering & tracking customer quotes. The system supports the entire procurement life cycle.

CFOs, CIOs, and Sales, Purchasing & Operations Pros save time and money by:

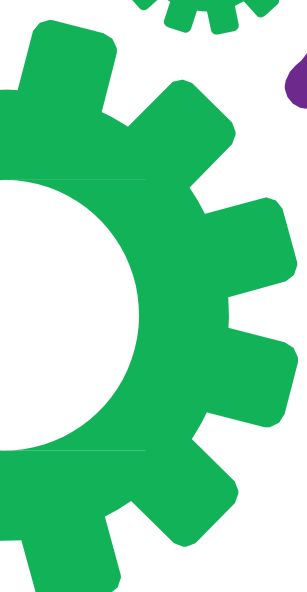

- Streamlining the procurement process and automating it to the greatest extent possible
- Ensuring invoices and received goods match orders
- Maximizing margin
- Improving customer sales support

## CONTRAQER CHANNEL IS UNIQUE

Contraqer Channel is the best option for solution providers, especially set-asides, to buy, sell, and responsibly dispose of assets. Contraqer Channel combines popular features of sourcing and procure-to-pay solutions with green recycling and certified data destruction at a reasonable price.

- Large enterprise offerings require expensive and time-consuming ERP or BPM implementations
- Other offerings force a choice between sourcing and procure-to-pay features
- For end-of-life electronics, no other company offers secure, environmentally responsible electronics recycling and certified data destruction through degaussing and hard drive shredding
- No other solution offers comprehensive functionality that supports government contracts like GSA, NASA SEWP V and NITAAC CIO-CS
