

# Your ONE STOP to Denmark

Staria's Denmark Localization SuiteApp is designed to perform special operations and payment processes by local Danish requirements.

BUILT FOR  
**ORACLE®**  
+  
**NETSUITE**

## Key Features

### Danish Statutory Report Templates

Customized P&L and Balance Sheet report templates as per local requirements

### Danish payment templates

Nordea Corporate Access, cross-boarder IBAN and BBAN payment templates

### Danish invoicing process

Invoicing in right format and FIK calculation

### European VAT codes

Automatic VAT code selection for transactions within European Community according to item VAT nature

### Automatic P&L Account Classification

Define mandatory department and class per account at a subsidiary level which populate upon transaction entry.

## Why SuiteApp?

1. All essential parts you need for financial localization are included.
2. Fast implementation: 1-2-Go! Ready to use in a few days.
3. This SuiteApp is validated by NetSuite (Built for NetSuite, BfN). Ensuring the requirements both for security and overall quality.
4. Trusted partner: Staria is a member of the NetSuite SuiteCloud Developer Network (SDN). Staria is also the Fastest Growing Partner in EMEA 2017.

## Easy and Fast Delivery: 1-2-Go!

1. Go to [staria.com/apps](http://staria.com/apps) and **fullfil the order form** or contact our sales
2. Staria onboarding **team will contact you** and confirm the delivery time
3. You are ready to **start using the app**
