

LEAN SIX SIGMA GREEN BELT TRAINING PROGRAM

Operational Performance Improvement

- > Advanced training in continuous improvement
- > In-house concrete projects achievement
- > Fast return on investment (ROI)

OPERATIONAL EXCELLENCE AS A RESULT OF ACTIVE EMPLOYEES INVOLVEMENT

Createch's Lean Six Sigma certification program aims to increase the profitability of your business by leveraging the full potential of your employees. Led by highly qualified and certified experts, this training focuses on the practical application of acquired theoretical knowledge. The trainers work on site with each of the participants in order to carry out a concrete improvement project for your company. Training increases the productivity of your employees by providing tools that allow them to :

- > Identify efficient avenues for improvement;
- > Establish development initiatives;
- > Become independent in managing complex projects

CUSTOMIZED PROGRAM

Participants receive personalized support following each of the training phases of the Lean Six Sigma methodology. At the end of the 20 week program, your employees will be able to :

- > Master the DMAIC methodology (Define, Measure, Analyze, Improve, Control);
- > Manage and carry out continuous improvement projects;
- > Use Lean Six Sigma tools effectively;
- > Generate tangible gains for your business.

This program is offered in French and English. It is intended for all staff wishing to carry out improvement projects. Training is tailor-made to meet the needs and realities of manufacturing and service companies in the private or para-public sector.

RESULTS-ORIENTED PROGRAM

« I want to express my satisfaction of Lean Six Sigma training's success given at Keurig by Createch. It helped our employees to concretely apply the topic. The customized assistance, the on-site training adapted to projects' pace, as well as evaluation processes has yield in real results regarding our processes improvements and costs reduction. Keurig now has an envied continuous improvement program, for which participants have appreciated the standard method and the range of tools provided. We are now well-equipped to pursue leading transformation projects. »
