

Video Security Made Easy

- ✓ Password-protection or 3rd party authentication options
- ✓ Apply 256-bit AES military-grade encryption
- ✓ No downloads, plug-ins or apps required to view

Extensive DRM Controls

- ✓ Set expiry dates or revoke access at any time
- ✓ Set browser limits, open limits, account limits, or IP address limits
- ✓ Customize watermarks and apply dynamic data to them

Distribute Securely Online

- ✓ Secure video player for all major browsers and devices
- ✓ Leverage advanced cloud-based processing and transcoding
- ✓ Offer different adaptive bitrate streaming options

Video Analytics & Insights

- ✓ Track audience engagement with your video content
- ✓ Analyze user behaviors with video view rates and more
- ✓ Understand who is accessing videos, when, for how long, and on what browsers

Integrate With Other Systems

- ✓ Embed secure videos on website, Intranet, portal, or other system
- ✓ Authenticate with systems such as eCommerce, CRM, Learning Management Systems (LMS), association or member systems, and more
