Realizeit®

All students deserve to achieve their full learning potential.

Helping every student succeed is impossible with instruction that treats all learners alike. Realizeit's intelligent digital learning and analytics system makes it easy to design and deliver personalized learning experiences that improve student engagement and success.

Realizeit helps optimize learning for students with diverse levels of knowledge and ability. The system continuously identifies and measures each student's knowledge gaps and provides the differentiated instruction and just-in-time support they need to be successful.

With Realizeit in their courses, students are empowered to take control of their learning, transforming them from passive to active learners and driving motivation, engagement and confidence.

With Realizeit's actionable analytics, faculty can quickly see where the class is struggling, identify at-risk students, and tailor lessons and outreach accordingly.

The Realizeit system also helps manage day-to-day tasks such as content delivery, grading and feedback, freeing up faculty to provide extra guidance on challenging topics or engage in more interactive, higher-level discussions and activities.

Empower, Enable and Engage Students and Faculty

ACTIONABLE ANALYTICS & INSIGHTS

STUDENTS
can identify their strengths and weaknesses and measure their progress

FACULTY
can see what students are doing, how much they know, who needs intervention and more – on an individual and cohort level

ADMINISTRATORS
can analyze results across cohorts, classes and whole programs

INSTRUCTIONAL DESIGNERS
can access in-depth insights on content and course performance

Realizeit has helped educators power success for more than 1 million learners in over 800 courses.

✓ FACE TO FACE, ONLINE, AND BLENDED

✓ ALL DISCIPLINES AND DEGREE LEVELS

STUDENT-CENTRIC LEARNING SOLUTIONS

- Adaptive lesson experiences
- Evidence-based teaching
- Orientation/placement
- Mastery-based progression
- Just-in-time remediation
- Exam delivery and test prep
- Competency-based learning
- And much more

FLEXIBLE TOOLS, SUPPORT AND INTEGRATION

- Intuitive authoring tools that can import existing content and use new, open source and/or publisher materials
- Expert service and support
- Seamless integration with LMS systems and third-party tools using LTI
- Mobile friendly and ADA compliant
