

Order of March 15, 2020 supplementing the order of March 14, 2020 carrying various measures relating to the fight against the spread of the covid-19 virus

NOR: SSAS2007753A
Consolidated version as of April 03, 2020

The Minister of Solidarity and Health,
Having regard to the Public Health Code , in particular its article L. 3131-1;
Having regard to the decree of March 14, 2020 carrying various measures relating to the fight against the spread of the covid-19 virus;
Considering that the World Health Organization (WHO) declared, on January 30, 2020, that the emergence of a new coronavirus (covid-19) constitutes a public health emergency of international scope;
Considering the pathogenic and contagious nature of the covid-19 virus;
Considering that respecting the rules of distance in interpersonal relationships is one of the most effective measures to limit the spread of the virus; whereas there is reason to observe them in all places and in all circumstances with the other so-called barrier measures, in particular hygiene, prescribed at national level;
Considering that the observance of the rules of distance being particularly difficult within certain establishments open to the public, it is necessary to close those which are not essential to the life of the Nation such as cinemas, bars or discotheques; that the same applies to shops with the exception of those of an essential nature such as food shops, pharmacies, banks, service stations or press distribution; whereas the list of establishments and activities concerned and the arrangements applicable to them should be specified according to their specific characteristics;
Considering that young carriers of the virus do not always show the symptoms of the disease even when they have contracted it; that children are less able to respect the instructions and barrier gestures essential to slow the spread of the virus; that it is necessary to specify the scope of the suspension of their reception with regard to the homes of maternal assistants,
Stops:

Article 1
