# LeanIX Store Content Provider Information

The LeanIX Store provides users with an ecosystem which leverages the knowledge of many by enabling the contribution and utilization of custom reports. A thorough approval and review process ensures the compatibility of the reports within LeanIX and sets a high-quality standard. This means users can easily and quickly find the right data visualization at the right time, saving the time and resources it takes to build a new report on their own.

## HOW IT WORKS

1. Register as a Content Provider in the LeanIX Store

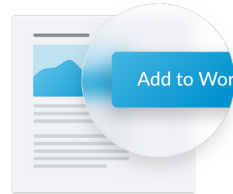

2. Start building Reports, once you are a registered Content Provider

3. When your Report is ready, we do a final review to ensure proper functionality and high quality

4. After approval, Reports can be published in the LeanIX Store, where users can browse for them

5. The LeanIX Store user can easily add Reports to their Workspace in just a few clicks

### For LeanIX Store Users

The LeanIX Store integrates seamlessly into the LeanIX user's Workspace. It allows LeanIX users to simply browse, select and install Reports enhancing the reporting section of their LeanIX Workspace effortlessly. A high quality of reports is ensured by LeanIX and the developing Content Providers.

### For Content Providers

We have made it easy for you to publish Reports you have built by utilizing the LeanIX Reporting Framework. Simply log onto the LeanIX Store and start your new Report project. We even provide you with a GitLab repository to ensure version control. The Report will be checked and after approval is ready for publishing. You are in full control over this process and can decide when and to whom you want to publish your Report.

## YOUR BENEFITS

### Customer Collaboration and Brand Building

Through the LeanIX Store you can share your expertise in EA and enhance your brand simply by providing great insights into the IT landscape of the customers through visualizations and supporting the strategic decision-making processes.

### Add Value to your Go-To-Market-Strategy

Are you providing EA advisory services to clients? If so, the LeanIX Store is the ideal platform to enhance your methodology by specific Reports and distribute them quickly.

### Roadmap Independence

Provide your insights as Reports and publish them immediately. You gain control over your delivery and developments on LeanIX without depending on the release cycle of LeanIX.

## WHAT YOU NEED TO GET STARTED

### ✓ LeanIX Store Content Provider Agreement

In order to be able to publish anything to the LeanIX Store and participate you need to become a registered LeanIX Store Content Provider first.

For that:

1. You have to request to become a Publisher in the LeanIX Store.
2. If you are not a registered LeanIX Store Content Provider yet, send us a signed copy of the LeanIX Store Content Provider Agreement to the stated email-address.

### ✓ LeanIX Development Workspace

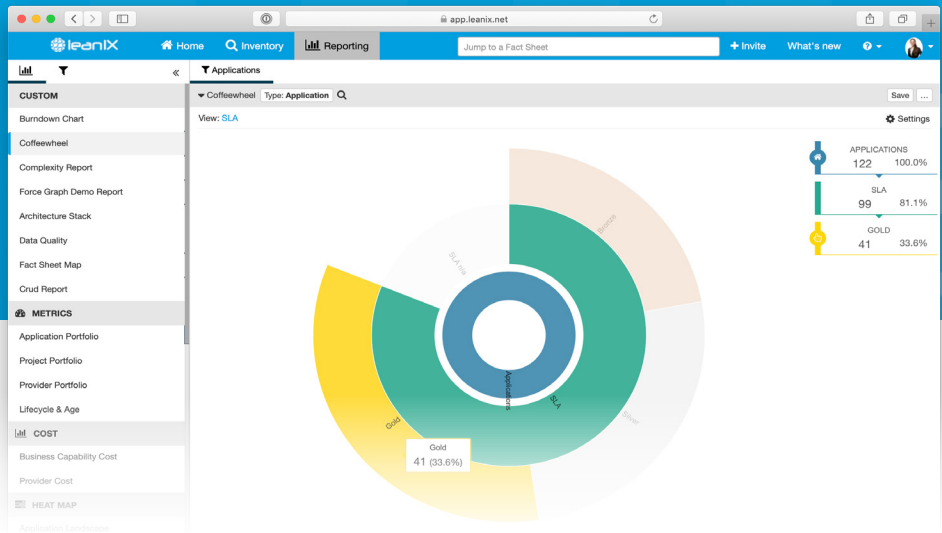

After the Partner Agreement has been signed, you will receive access to a LeanIX Development Workspace and a GitLab group from us automatically allowing you to start building your Reports.

### ✓ Technical Expertise

To build Reports for LeanIX, you will need sufficient knowledge in modern web technologies and JavaScript. Furthermore, you should be familiar with the principles and technologies used in the LeanIX Store.

## SAMPLE REPORT

## ABOUT LEANIX

LeanIX offers a Software-as-a-Service (SaaS) application for Enterprise Architecture (EA), which enables organizations to make faster, data-driven decisions. Hundreds of global brands such as Adidas, DHL, Merck, Vodafone, or Zalando use the LeanIX application to increase transparency, visibility and drive real-time efficiencies.

LeanIX addresses IT's critical need to ensure high quality, real-time data is accessible to the people who need it. Use Cases include Application Rationalization, Technology Risk Management and the shift from Monolithic Architectures to Microservices.

LeanIX was founded in 2012 by Jörg Beyer and André Christ. The company is headquartered in Bonn, Germany, with additional offices in Boston, Massachusetts and Houston, Texas.
