

Third-Party Risk Management Simplified to Scale

“The ease of use, the strong automated capabilities, the strong substantial reporting and the insights into our vendor security ecosystem won us over.”

Fawaz Rasheed, Chief Information Security Officer, Trustmark

Company Name	Trust Score	Departments	Labels	Requirements	Due Date Status	Remarks Status

Our **network-enabled platform** creates a streamlined process, ultimately cutting down the redundancies and inefficiencies involved in third-party risk assessments.

Leverage the over **6000+ third-parties** already on our platform to **expedite your risk assessments**.

ThirdPartyTrust

Utilizing **workflow automation** and powerful **collaboration tools**, teams can **reduce the time** it takes to complete assessments from months to days.

Easily **share high level info** of your third-party risk program with your CISO and Executive Team.

By implementing ThirdPartyTrust, risk teams can **keep up with the growing business demand to engage more third-parties** while staying compliant with your regulators

Required Documentation
for tiered third-parties

Automatic data feeds
data breaches, geo-political risk, financial risk and security ratings

Collaboration amongst
internal teams and third-parties
through invites and sharing

Process automation for
on-boarding and real-time
notifications of events

Business Impact Score

Third-Party Trust Score

Actionable reports for
immediate remediation

Collective intelligence
of the **network**
