New feature

• New PetalMD features in News Feed

Enhancements

- Simplified navigation
- Display of pending elements (unread messages, exchanges, marketplace)
- Overview of personal calendars, dashboard and patient appointments

2 Secure messaging

New features

- Search in messages
- Sending messages to a distribution list
- Archive section for future reference
- Draft mode when writing messages

Enhancements

- Sending messages to all users of the platform, for physicians
- Sending messages to entire group
- Ability to respond only to the sender of a message

New feature

• Marketplace to simplify the exchange of shifts between doctors

Enhancements

- Centralized pending requests
- Centralized group calendars

4 Hospital dashboard

New features

- Ability to change task colours
- Messaging from the Dashboard
- Write to all On-Call physicians
- Write to all physicians who can cover On-Call shifts
- Write directly to a physician assigned to a task
- Real-time update of console data (automatic refresh)

Enhancement

• Easier access to data
