WORKING FOR OEM

> ABOUT OPEN ENERGY MARKET

Open Energy Market is a young, dynamic business experiencing rapid growth following a significant investment early in 2018.

We are combining technology and expertise in challenging the established corporate energy market, with the longer term aim of entering other sectors with a competitive commercial marketplace built on a foundation of insight, innovation and integrity.

We are on the lookout for intelligent, curious graduates with an appetite to learn about the business world and the potential to drive Open Energy Market's growth long into the future.

JOB DESCRIPTION

> JUNIOR FINANCE ANALYST

The Role

Wide-ranging, entry level role, supporting the CFO and Finance Manager.

You will be involved in accounting, budgeting & forecasting, departmental reporting & analysis, management reporting etc etc.

Specific tasks will range from administering accounts receivable to preparation of monthly board packs.

The development of the role will depend largely on you and the direction that you want to take.

The Opportunity

This is a chance to kick start your career. This is not an accounting trainee role; nor is it a highly structured graduate scheme. This is a rare opportunity (for a rare candidate) to work closely with the senior management team of a fast-growing, VC-backed technology business and gain a perspective that will serve you throughout your working life.

You will be able to direct your development and the right candidate will move quickly into supporting strategic decision making, driving product development, improving business processes or, perhaps, into formal financial training.

We want the right person. What happens next is up to you.

The Person

No significant work experience is required. This is an entry level role for someone whose exceptional attributes give them the potential to become a leader in our business in a short period of time.

The ideal candidate will display exceptional:

Academic intelligence
Common sense
Curiosity
Literacy

Numeracy
Attention to detail
Communication skills
