75"

75" Ultra HD 4K interactive touch screen

Building upon the success of the Avocor F series, the 75" X series display, includes our revolutionary InGlass™ touch technology, now supporting 20 simultaneous touch points. The display delivers all the market leading features of InGlass, smooth, accurate and responsive touch in conjunction with precise object recognition.

The display also includes two Avocor active pens, allowing two users to write simultaneously at the display into a range of your favourite applications. The fine 2mm tip of the Avocor Active Pen, allows you to write and draw naturally and is incredibly responsive, delivering the experience of writing just like pen on paper.

Powered by a Windows 10 operating system, the X series delivers the same instantly recognisable interface as the E and F series, enabling users to access a wealth of familiar applications and content straight from the display.

The X series also includes an advanced connect and collaborate bar, featuring the host of connectivity and control keys from other series in the family, adding in a wireless presentation module which enables users to easily connect 3rd party devices to the display. Get meetings started quicker by wirelessly connecting guest devices and sharing content instantly.

There is also a high quality soundbar module housing 40w of directional audio delivering crisp, rich audio performance, amplifying every meeting experience.

-  Active pen functionality
-  Wireless presentation module
-  40W integrated soundbar module
-  20-point simultaneous touch points
-  InGlass™ touch technology
