# Adaptive OfficeConnet

The Adaptive Suite enables companies of all sizes to collaboratively plan and model, easily access real-time analytics, and streamline complex reporting. You get easy, powerful, and fast software that empowers finance teams everywhere to better manage the business. It's easy, so you can plan as a team. It's powerful, so you can model anything and analyze everything. And it's fast, so you can model rapidly and adapt quickly. With this best-practice active planning process, you can plan and adapt without compromise.

Easy, Powerful, and Fast Reporting for Microsoft Office

Adaptive Offi ceConnect makes creating reports in Microsoft Offi ce easy. Connect your existing Excel reports to the Adaptive Suite, or create new, presentation-quality reports from a blank slate.

With Adaptive Offi ceConnect, reports can be refreshed with a single click. There's no need to manually re-key, copy, paste, or reformat after each update. And with full connectivity across Excel, Word, and PowerPoint, your data flows from financial reports to board books to management presentations. The result: attractive, consistently up-to-date, and comprehensive reports that allow you to focus more time on making informed decisions that drive your business.

Your Excel reports become dynamic, intelligently linked to the Adaptive Suite

With Adaptive OfficeConnect, You Can:

- Easily create presentation-quality reports based on the latest data in the Adaptive Suite

- Quickly convert existing Excel reports into Offi ceConnect reports

- Seamlessly weave any data in the Adaptive Suite through Excel, Word, and PowerPoint

- Simplify report, board book, and presentation creation

- Automate monthly reports and executive packages

- Gain complete control of report layout without any added maintenance

- Save time updating reports with a simple one-click refresh

- Share information in any format (XLSX, DOCX, PPTX, PDF, etc.)

Create Powerful Reports. Fast.

- Create presentation-quality Microsoft Offi ce reports dynamically integrated with the Adaptive Suite

- Jump-start report design by leveraging your current Excel report library

- Drag and drop to convert existing Excel-formatted reports into connected reports in minutes
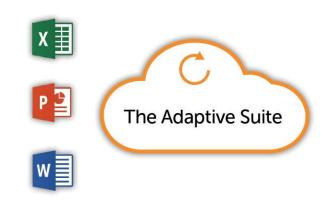

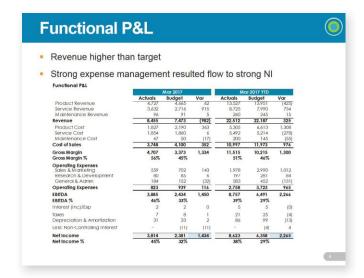

- Run and refresh reports with a single click

- Leverage powerful Microsoft Offi ce controls including conditional formatting, calculations, and charts

- Drive a consistent look and feel with integrated report, board book, and presentation dynamic linking

Create Reports that are Intelligent and Dynamic

- Generate accurate, timely reports with advanced integration between the Adaptive Suite and Microsoft Offi ce

- Confidently create and refresh reports without re-linking or reformatting

- Intuitively browse and select any account, hierarchy, product dimension, and more

- Incorporate any data in the Adaptive Suite, including actuals, plans, budgets, and forecasts

- Automate period adjustment, zero suppression, and conditional formatting to reduce maintenance

- Empower decision-makers with filters by dimension, time period, hierarchy, version, or attribute

- Control sensitive information access with Adaptive Suite security
