COVID-19 Return-to-School Kit

CRISIS GO

FREE Software Toolkit
Vital resources for school re-opening plans

CrisisGo has been keeping schools safer for years from many physical hazards, such as earthquakes, tornados and intruders. Now CrisisGo is offering a **FREE COVID-19 Return-to-School Kit**. This software toolkit focuses on intelligent reporting, trend analysis and monitoring compliance. The kit is comprised of software tools, intelligent survey resources and more to assist your school re-entry and re-opening planning.

The toolkit uses **simple technology**, including SMS, email and web browser for parents and staff to easily use and be engaged. The toolkit can be implemented in days since CrisisGo pre-defined all questionnaires, forms and tools to be ready to go with minimum onboarding training. In addition, CrisisGo will assign an account manager and provide support throughout the entire free period.

The CrisisGo COVID-19 Return-to-School Kit features valuable, vital resources that can help shape and accelerate plans to ensure the safety and health of students and staff returning to school buildings and campuses:

- Ascertain staff and student's **intent to return** to school in the fall
- Understand the **health of your stakeholders**, before and after returning to school
- Maintain compliance of **cleaning and disinfecting protocols** with the additional goal of capturing cost data for possible reimbursement
- Maintain sufficient inventory levels of **personal protective equipment** at all facilities
- Improve the process of **contacting unresponsive students** and capturing all associated data

Tools to Assist School Re-Opening and Re-Entry

Safety CheckIn

Intelligent survey tool, preconfigured to include essential surveys: family and staff willingness to return, family health check, weekly supply chain for PPE, daycare availability, and more.

Actionable Reports

Real-time reports that have been preconfigured to show on-site temperature checks, advance absence reports for students/staff with symptoms questions, and violation report of COVID-19 policies.

Data Monitoring

Easily monitor the process of your response and re-opening initiatives from a central, online dashboard. Your safety data is easy to review and share for making data-driven improvements.
