CrisisGo
A Comprehensive Safety Platform

School safety is more than just responding to emergencies because keeping schools safe requires the full scope of **prevention**, **preparation**, **response**, and **recovery**. CrisisGo's digital safety and crisis response platform connects people, schools, and technology to ensure everyone has what they need to be safer, no matter what situation occurs.

PREVENT

The best outcome is to prevent an emergency before it occurs, and CrisisGo is helping organizations prevent emergencies with the ability to identify, document, and address safety risks before they escalate into a full-blown crisis.

Student Threat Assessment	Tip Line	Safe2SpeakUp	Safety Awareness	API

PREPARE

Having the best resources and plans won't matter if your staff aren't prepared. CrisisGo not only helps stakeholders stay prepared in the moment of a crisis with quick and easy access to the resources and information they need, the platform also makes it easier to prepare your staff for the worst with in-depth safety practice and improvement capabilities.

Drill Management	In-App Training	Role-based Checklist	Digital Maps	Executive Drill Report

RESPOND

When an emergency strikes, you need to make sure the right people receive the right information immediately. CrisisGo provides your people with a swift and reliable way to warn everyone immediately, communicate throughout the incident, and escalate the situation to first responders to include every appropriate party in the response effort.

Alerts	Emergency Escalation	911 Call	Digital Emergency Plans	Emergency Communication

RECOVER

When you need to put the pieces back together after a critical event, you'll want a digital safety platform that makes it easy to account for everyone and document what happened. CrisisGo helps schools recover from incidents by allowing your staff to keep track of everyone and review your safety data from incidents.

Roster Event	Staff Check In	Student Safety Status	Emergency Contacts	Student Reunification

CrisisGo is available on computers, tablets, and mobile devices to make safety accessible no matter what screen you're looking at. Utilize CrisisGo's digital safety and crisis response platform to build a safety network for your district.
