

# The 7 things about your expense report you'd never think

## 1 Drawing up expense reports is a common process in most companies.

Does your company have employees drawing up expense reports?

## 2 In 60% of enterprises, between 1 and 20% of employees draw up expense reports.

What percentage of your employees draw up expense reports on a regular basis?

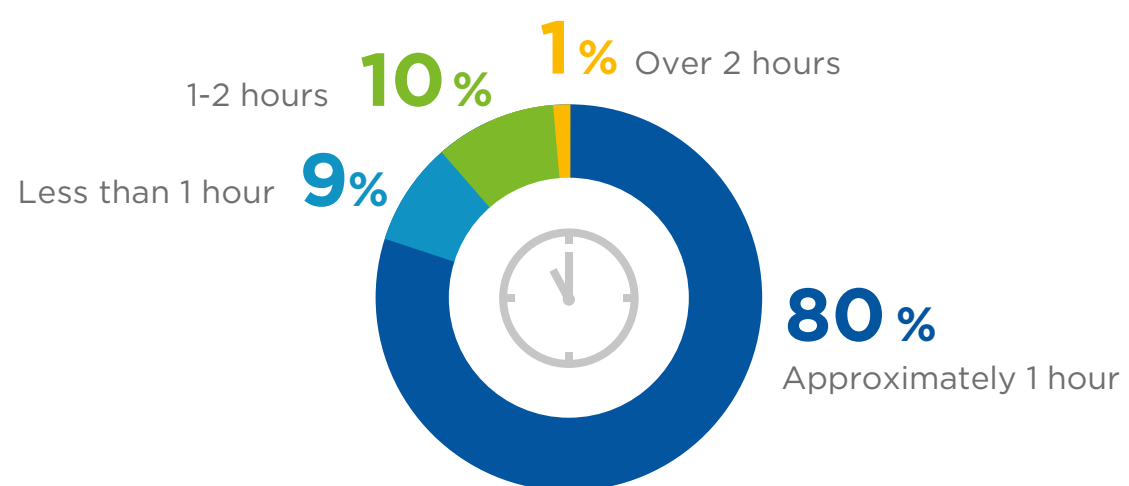

## 3 75% of employees draw up their expense reports on a monthly basis.

How often do your employees draw up expense reports?

## 4 80% of employees take about 1 hour to draw up their expense report

Approximately how long do they take to draw them up?

## 5 55% of companies manage their expense reports exclusively on paper.

- An efficient and cumbersome process.
- Captio digitizes them to automate the process.

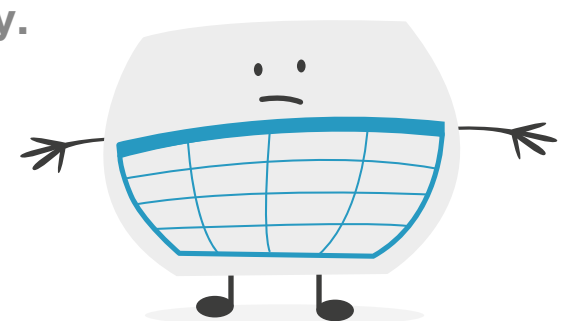

## 6 50% of employees usually have to wait up to 11 days for their expenses to be reimbursed and 15% have to wait almost 30 days.

This is undoubtedly discouraging and annoying for their employees.

## 7 Fraud control in a non-automated environment is complex and costly.

47% of employees usually increase their expense reports by an average of €10-15/month (4% admit to claiming extra costs of between €50 and €100/month).
