

DECISION LENS

Strategic Solutions for the Intelligence Community

At the end of the day, we got a credible result that was more analytically sound in less than half the time”

Joint Chiefs of Staff

The Intelligent Portfolio

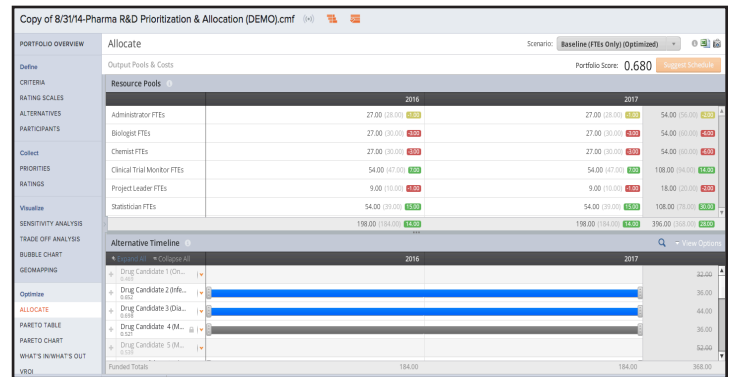

Decision Lens is a cloud-based software solution providing a defense-wide capability portfolio framework that enables an enterprise view of existing and planned capabilities to ensure delivery of innovative solutions to meet strategic objectives. Decision Lens combines valuable organizational data with experts’ judgments to establish priorities in an efficient, intelligent framework. Decision Lens’ streamlined and automated solution saves countless hours and resources while simultaneously providing optimal value for your initiatives.

Competency Areas: Modernization, Readiness

Resource Allocation, Strategic Prioritization, Risk/Trade off

Analysis, S&T/Innovation Prioritization, and Workforce Planning.

- Reduce budgetary uncertainty
- Execute sustainment plans and address emergent sustainment requirements.

Visualize performance on key decision drivers and define the trade space

Optimize financial and human resources with multi-year planning capabilities

DECISION LENS

Strategic Solutions for the Intelligence Community

Intelligence Community Customer Profiles

Intelligence Agency #1

Program Build Process

Agency #1 is helping guide their Directorates in a tiered voting process to prioritize 200 programs across their organization in support of the POM process. In doing so, Decision Lens is allowing the organization to streamline their criteria set across previously “stove-piped” Directorates. The implementation of Decision Lens is helping alleviate otherwise disparate priorities while enabling a unified POM process.

Intelligence Agency #2

Strategic Prioritization

Agency #2 uses Decision Lens to crowd-source subjective subject matter expert opinions against 250 project proposals thereby aligning warfighter investment priorities to strategic criteria. Decision Lens assists Agency #2 with their investment strategy by helping to prioritize funding of the most relevant innovation projects across the Defense Intelligence Enterprise. Thus, bringing critical capabilities to the warfighter at the speed of relevance.

Intelligence Agency #3

Strategic Planning and Resource Optimization

Agency #3 capitalizes on strategic planning and resource allocation across multiple venues within their organization. Decision Lens helps prioritize cyber intrusion sets to focus analytic resources more efficiently. Agency #3 created a weighted point system to bind CTO’s strategy, business objectives, and thousands of detailed work packages under one system of record.
