

Delight students and faculty

Today's higher education landscape is more diverse than ever before. Modern students come with high expectations for personalized attention, online access, and the social connection that drives our world. Empower your instructors to create dynamic learning environments that captivate and delight all your students with Jenzabar® eLearning. Help faculty adopt innovative methods of delivering and enhancing a personalized educational experience, so you can excite and engage today's learners and attract a broader range of students.

When students use Jenzabar eLearning, they form strong connections with your faculty and each other. They become engaged in the learning process in ways that are not possible with traditional in-classroom methods, including accessing their education 24x7 from wherever they are. Jenzabar eLearning is powerful yet easy to learn, with seamless integration so you are up and running in no time.

At a Glance

Jenzabar eLearning is a powerful yet easy-to-use learning management system that won't break your budget. Jenzabar eLearning delivers all the tools your faculty needs over the interface your students want, giving you the flexibility to deliver courses in the way modern students learn.

Integration with your other key technologies and two milestone certifications from the IMS Global Learning Consortium puts Jenzabar eLearning at the forefront of interoperability.

Advantages

- ▶ Low cost of ownership
- ▶ WCAG 2.0 AA targeted development for accessibility
- ▶ Seamless integration
- ▶ Free tier of Jenzabar Online Meetings for real-time collaboration
- ▶ Robust controls for course population and management
- ▶ IMS Learning Tools Interoperability v1.1 and IMS Common Cartridge v1.1 certified

"Jenzabar eLearning has enabled us to broaden our offerings. Our students stay in contact with their instructors 24x7. Jenzabar eLearning has benefited all our constituents, from the student, to the staff, to the instructors."

Selective release of coursework and content

Using this web-based solution, instructors set the opening date/time for content and materials for the entire course. Additionally, scheduling page posts, units, handouts, and bookmarks by date or by student progress are all at their fingertips. Jenzabar eLearning supports “work at your own pace,” remedial, and fast-track coursework—from pre-test directly to final exam paths.

Discussion forums and blogs

Jenzabar eLearning includes support for graded discussion forums, which allows participation to be a course assignment. Communications are targeted to specific students via the blog page and a class calendar, which contains all course meetings and optionally displays due dates of assignments.

Course and testing options

On a course-by-course basis adding, removing, and setting up your own course structure is attainable. Instructors can easily build quizzes and self-assessments, leverage various online testing options, or print exams for in-person testing. A faculty file cabinet feature stores test questions, assignments, and other materials to be used repeatedly.

Class pace and organization

The course home page groups assignments, events, news, discussion, and resources by unit; plus, it provides a course overview to students. Instructors can efficiently move all or selected content, including setting dates from one course to another, and map templates to courses, including default grade scales and rubrics.

Class assistant support

Give TAs, academic deans, and instructional technologists various levels of control within a class without being listed as teaching.

Give faculty the tools they want

Inspire student learning with increased teacher-student collaboration. Jenzabar eLearning provides a variety of coursework types to support all the ways faculty teach and assess students.

- ▶ Collaborative learning
- ▶ Course organizer, course copy, term rollover, rich template mapping
- ▶ Gradebook
- ▶ Usage statistics and course evaluations
- ▶ Test, quizzes, and analytics
- ▶ File cabinet
- ▶ Email/calendars
- ▶ Chat, discussion forums, and online meetings
- ▶ WCAG 2.0 AA development for accessibility
- ▶ Selective release of coursework and content
- ▶ Seamless data exchange to administrative system
- ▶ Free tier of Jenzabar Online Meetings for real-time collaboration
- ▶ IMS Learning Tools Interoperability v 1.1.1 and IMS Common Cartridge v 1.1 certified
