Deloitte East Africa was looking for a reliable notifications solution to replace the emails system.

SOLUTION:

DeskAlerts helps in the sense that it is interruptive.

Time is saved and a more effective mode of communication is used. That can be interpreted as money saved.

All departments use DeskAlerts to send communication that would ordinarily be missed via email communication. DeskAlerts helps in the sense that it is interruptive. Staff prefer to communicate via DeskAlerts to notify them and remind of upcoming events.
