- Learning Collaborative Update
- Practice Transformation Update
- Behavioral Health Integration Update
- Common Scorecard Discussion
- Next Steps
- Public Comment

SUMMARY OF DISCUSSION

- Updated Practice Transformation numbers were provided to the Committee, which facilitated discussion on disparities in milestone achievements. Barriers to milestone achievement include lack of IT capabilities and staffing resources. The Committee also reviewed and discussed new Practice Transformation vendor qualitative and quantitative reporting tools.

- Committee members were updated on the status of the Behavioral Health Integration program and discussed barriers to integration, including the need to enhance provider outreach and education sessions to raise awareness.
- Committee members were briefed on the status of the Common Scorecard and reviewed a de-identified Scorecard infographic highlighting practice performance. The Committee is comfortable posting a similar infographic to the DCHI website to enhance awareness and solicit provider feedback.

PUBLIC COMMENT

- One member of the public noted that the patient perspective seems to be lacking from several initiatives. For example, does enhanced quality necessarily mean an enhanced patient experience?

NEXT STEPS

- Relay Scorecard feedback to the DCHI Board and discuss next steps during March meeting.
