

EXECUTIVE MANAGEMENT CONTACTS FOR THE UNITED KINGDOM

Michael Kavanagh

Chief Executive Officer, President and Managing Director

Michael Kavanagh joined Nanosonics in October 2013 with more than 25 years commercial experience in the international healthcare market. He has held local, regional and global roles in the medical device and pharmaceutical industries, and also served on the Nanosonics Board as a non-executive director for more than a year. Prior to joining Nanosonics, Michael was Senior Vice President of Global Marketing for Cochlear Ltd., a company credited with inventing the world's first multi-channel cochlear implant.

Michael holds a Bachelor of Science degree from University College Dublin, and a Master of Business Studies specialising in International Marketing and General Management from the University of Queensland.

Steven Farrugia, Ph.D.

Chief Technology Officer

Steven joined Nanosonics as Senior Vice President, Design and Development in September 2016 and was appointed to the role of Chief Technology Officer in February 2018. He has more than 20 years' experience in leading medical device developments. Prior to Nanosonics, Steven held a range of senior executive roles with ResMed, including Vice President of Technology and Vice President of Product Development. He is also an inventor of almost 300 granted and pending patents and is a past Adjunct Professor of Engineering at The University of Sydney. In addition to Design and Development, Steven is responsible for the Regulatory Affairs function of Nanosonics.

Bryn Tudor-Owen

Country Manager, United Kingdom

Bryn joined Nanosonics in August 2012 and has more than 25 years' experience gained within the medical device industry. Prior to Nanosonics, he held senior positions with GE Medical Systems and Cardinal Health for more than 15 years before driving the United Kingdom startup operations for a German healthcare SME.
