trophon® EPR

1. Consumables

Sonex-HL® Cartridges

Sonex-HL is a proprietary disinfectant liquid with 35% hydrogen peroxide chemistry to achieve effective high level disinfection of the entire ultrasound probe including the shaft and handle.

Chemical Indicators

A Chemical Indicator provides further validation of each disinfection cycle with a qualitative color change.

2. Traceability accessories

trophon® Printer

The trophon Printer is a fast, easy to use traceability solution by helping to link the probe and the high level disinfection procedure.

trophon® Logbook

The trophon Logbook allows for easy recording of important disinfection steps and is compatible with trophon Printer labels.

trophon® Connect

trophon Connect software enables easy downloading and long term record keeping of trophon high level disinfection (HLD) cycle data.

Clean Ultrasound Probe Covers

Clean Ultrasound Probe Covers are custom designed to protect intracavity and surface ultrasound probes from recontamination (through handling or the environment), after high level disinfection and before they are used on the next patient.

Have you trophoned today?

Join over 3,000 health care facilities who do (including 49 of the top 50 hospitals in the U.S.)

trophon® EPR

Allow easy installation and placement at point of care

3. Point of care set-up accessories

trophon® Wall Mount

The trophon Wall Mount is a convenient option for installing trophon where there are space constraints.

trophon® Cart

The trophon Cart makes trophon fully mobile for convenient point of care use and adaptability where there are space constraints.

trophon® Printer Wall Mount

The trophon Printer Wall Mount is custom designed for secure, horizontal mounting of the trophon Printer to a wall, and includes a cable tidy area for convenience.

trophon® Printer Cart Mount

The trophon Printer Cart Mount is designed for securely attaching the trophon Printer to the trophon Cart, in an easily accessible, convenient location.

trophon® Curved Probe Positioner (CPP)

The trophon CPP improves the positioning of approved curved probes in the trophon chamber. Many curved probes are approved for use with trophon.
