EVERYONE HAS A BACK STORY
SO HERE'S OURS

*This will give you insight
into the kind of people
we are*

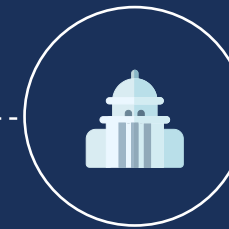

Let's Start At The Very Beginning

Our founder, "Yoni" started coding at age 6.

He was making more money than his parents coding by age 15

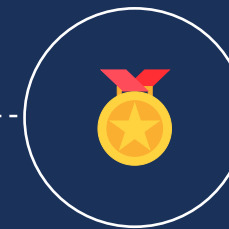

Yoni went on to serve in the Israeli Government Intelligence Unit 8200.

Indeni was officially launched in 2010

At Check Point the idea for Indeni was born.

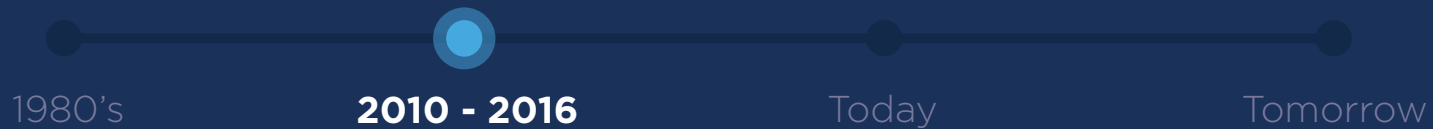

After winning the Israeli President's award, he joined Check Point.

Yoni Recruited An Awesome Team

Yoni looked for people with proven track records, potential to grow and his same optimistic core values

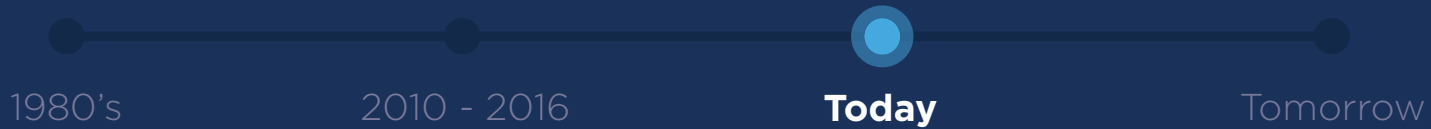

Engineering, Support, Sales, Marketing were all established

Our team and achievements started to grow.

We Help Customers Succeed

We serve the some of the largest brands on the planet. Names you'd recognize. Perhaps some brands that are currently in your wallet

Backed by some of the best VC's including Sequoia Capital.

Two offices located in San Francisco and Tel Aviv

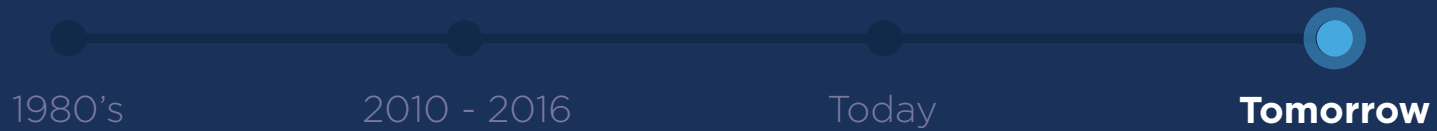

Over 100 customers, with no sign of slowing

We are in a position to be selective of who and what funding we take on.

Where We're Headed

Today we focus on improving the lives of IT professionals

We have started with the most critical devices in Enterprise networks- firewalls, routers, switches

We think it's time IT had a work life balance also!

Our goal is to bring knowledge to every step of the IT lifecycle

IN ORDER TO ACHIEVE THIS VISION WE NEED THE RIGHT PEOPLE 'ON THE BUS'

OPTIMISTIC

Big challenges are ahead. You can handle the bumps and growing pains that come with start up life.

INNOVATIVE

Unprompted identifies opportunities to improve processes. Concisely proposes new ideas to push us forward.

PASSIONATE

When you love what you do, it doesn't bother you burning the midnight oil

COLLABORATIVE

Deeply believes that working with others will achieve greater results

GET STUFF DONE

You are responsible and accountable. Will plow through obstacles to achieve company goals

HERE'S WHAT IT'S LIKE TO BE ON OUR BUS

A Workplace That Values Your Ideas And Suggestions

- We're a startup, still developing processes and strategies. When you have an idea, we listen, and your suggestions make a direct impact on the company

A Fun Environment

- Nerf wars and ping-pong matches are not only acceptable but encouraged. Everyone needs a few minutes to recharge, so do it (have fun) and then get back to crushing your work.

*Ideas wanted
for how to
maintain this*

A Work Life Balance

- Every once in awhile a big project comes up and you have to burn the midnight oil. This is the exception, not the norm.
- If you're sick, stay home and and rest. Don't work, we want you to get back to 100%
- If you're on vacation, don't check your email. Enjoy the break, you've earned it!

*Sometimes it
feels more like a
party train.*

BUT DON'T TAKE OUR WORD FOR IT
