

Increase Continuity & Employee Workflow With Tech+ Managed Communications

The changing technological landscape has allowed for work cultures like BYOD and working remotely to become the standard.

Managed communications allow the entire office ecosystem to be put into a scalable package that allows reliable communication and collaboration to occur from anywhere in the world.

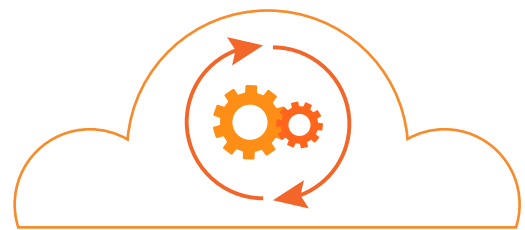

The cloud communication platform from Tech+ enables employees to work from anywhere, without missing meetings or sacrificing collaboration.

To enhance collaboration across all departments of your enterprise, **Tech+ Managed Communications includes:**

- ✓ Video conferencing & texting
- ✓ Easy employee onboarding
- ✓ Reliable oversight of systems
- ✓ Savings of 50-70% on hardware and equipment
- ✓ A cloud-based platform to manage communications
- ✓ Portable access to flexible and secure solutions

Office1's Tech+ program uses the cloud to increase the flexibility of your employees and establish continuity for your business.
