# Enhance your Entire Document Workflow with Proactive Printing Processes

Letting your document operations grow stagnant and outdated could be deadly to your bottom line and workflow productivity.
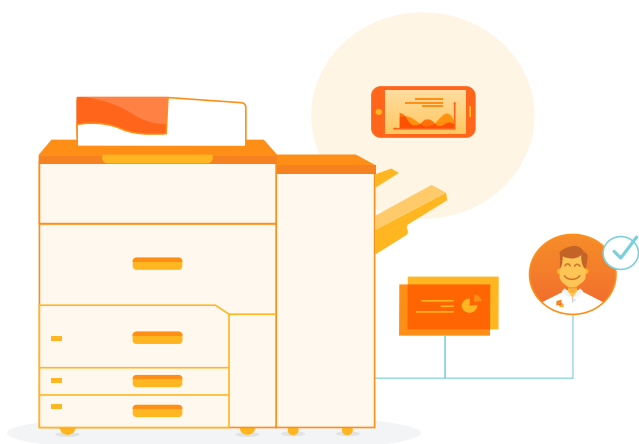

PrintTQ trains your document imaging to be a conductor of work-place efficiency between your office and the cloud.

By Digitally Transforming Your Document Workflows, you'll:

- ✔ Automate customer-facing processes for a **stronger competitive edge**
- ✔ **Reduce operating costs** with streamlined printing processes
- ✔ **Eliminate** the need for manual data entry
- ✔ Control your document volume for **ease of scalability**

Our experts compose a custom strategy in order to give your business the competitive edge it needs.

PrintTQ will:

- ◯ **Analyze workflows** over a non-intrusive, risk-free 30 day period
- ◯ Re-evaluate printing habits and information movement to create a plan that'll **cut costs and boost efficiency**
- ◯ **Upgrade** and map print-based workflows to efficient, cloud-based digital workflows
- ◯ Create a scalable, dynamic and custom-fit strategy to **strengthen your business** through technological innovation
