

FREE 24/7 90 DAY REMOTE MONITORING TRIAL

Round-the-clock peace of mind your business deserves.

Office1's 24/7 Remote Monitoring Free Trial

Your office ecosystem works around the clock. You deserve the clarity and value of knowing that your business is safely operating at peak efficiency no matter what time it is - with 24/7 Remote Monitoring, we're remotely working behind the scene 24/7 automatically keeping your technology up to date and **resolving issues before they become costly.**

Did you know?

91

Businesses spend 91 hours a year dealing with technical issues.

42%

Companies who use managed services reported an average of 42% increase in overall productivity.

42,000

The average hourly cost of downtime for networks of small to medium-sized businesses is \$42,000.

With this offer, you'll benefit from:

- ✓ **Remote Monitoring:** Early warning system alerts that warn us about hardware failures, allowing us to instantly solve issues before they become problems.
- ✓ **Managed Antivirus:** We'll detect infections and quickly eliminate them, with no costly time lost.
- ✓ **Network & Security Audit:** We'll put together a custom-tailored plan to optimize your office's entire technology ecosystem.
- ✓ **Dark Web Scan:** We'll scan our databases to make sure none of your data is on the Dark Web. We'll provide you with up-to-date reports as well as a targeted plan to secure that data.
