Free Data Security Help for
Newly Remote Businesses Amid COVID-19

During this highly troubling time, the Office1 team has decided to help in the best way we know how: **Securing & Digitizing Your Operations.**
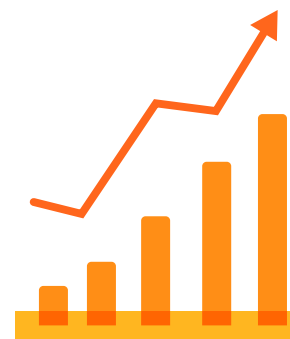

Office1's 24/7 Remote Monitoring Free Trial

In the past weeks, **hacking attempts have skyrocketed**. With unprecedented numbers of people working remotely, untold numbers of businesses have become significantly more vulnerable to cyber-attacks. We understand the toll the Coronavirus is already taking on these companies, the last thing they need is a computer virus as well.

We're offering businesses our Remote Monitoring Package, **free for 90 days** to help them get through this virus.

Remote Monitoring Package benefits:

✓ **Managed Antivirus:** We'll detect network breaches from our remotely managed team & quickly eliminate them- ensuring no damage to your sensitive data, or lost time.

✓ **Remote Monitoring:** With our network system alerts, we'll instantly remote in & solve issues before they become problems, so you can manage your entire network from anywhere.

✓ **Network & Security Scan:** We'll audit your network security strength & provide you a risk score. Then, we'll create a custom-tailored plan to optimize your team's network & time working from home.

✓ **Dark Web Scan:** We'll scan our databases to make sure none of your data has made it to the Dark Web already. Offering up-to-date reports, we'll set up a plan to secure your data.

We hope that these small efforts will work to alleviate some of the pressures that businesses are facing.

If you have any further questions, **please reach out!**
