Making Data Governance “Agile” Again

Implementing & monitoring Data Governance in the new era of data

Manrich Kotze

Capitec Data Governance Lead

Agile approach to Data Governance

Shift away from massive enterprise level Data Governance programs, to short bursts **BUSINESS VALUE** implementations, but still deliver on risk and compliance expectations

Agile approach to Data Governance

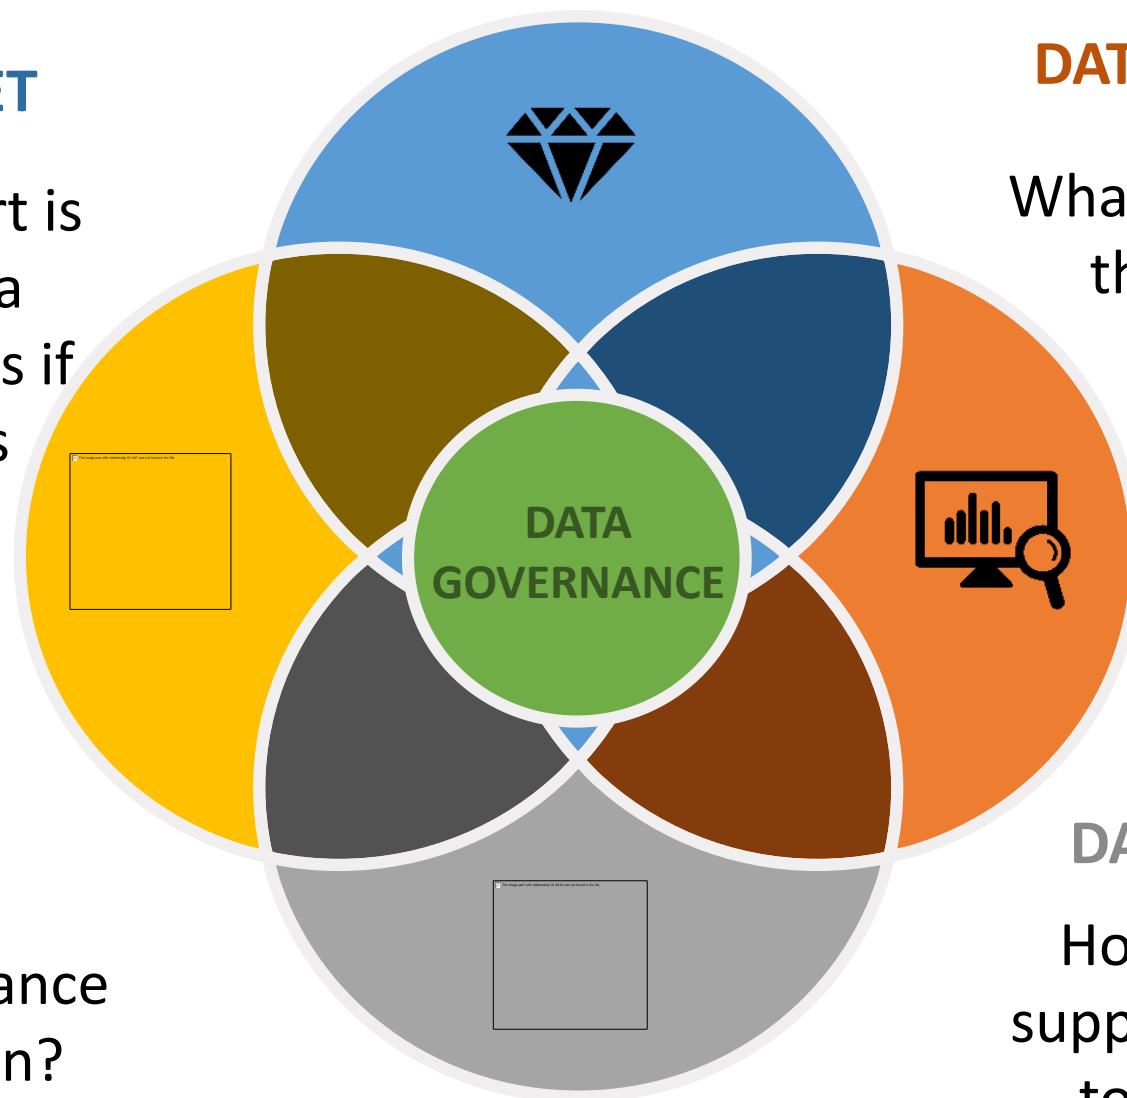

Business value unlocked

DATA AS AN ASSET

How do you ensure effort is spent on the right Data Governance components if the implementation is fragmented?

DATA DRIVEN

Why does Data Governance need to be Data Driven?

DATA LIBERATION

What architecture supports the agile approach to liberating data?

DATA CULTURE

How does data culture support an Agile approach to Data Governance?
