

# CISO Africa Cape Town

## Data Protection & Privacy Law

### Pre-Conference Focus Day Agenda

6 August 2019 | CTICC, Cape Town

7:30	<b>Registration Opens</b>
8:55	<p><b>Welcome &amp; Opening Remarks</b></p> <p><b>Workshop Leader: Verine Etsebeth, Senior Lecturer: School of Law, WITS University</b></p> <p><i>Verine Etsebeth is a senior lecturer at the Wits School of Law. Verine is an admitted attorney who did her articles in the IT law department of Edward Nathan Sonnenbergs Attorneys. She has a Masters degree in Law (LLM dissertation entitled "The Legal Implications of Information Security Governance") and Higher Diplomas in Corporate Law, Tax Law and Labour Law, and is currently enrolled for a PhD at WITS. Verine specialises in Information Security and data protection law, and is the co-ordinator of and a lecturer on WITS' LLM course in Cyber Law and Access to Information and Privacy Law. She has presented papers at numerous national and international conferences and has published articles in a range of local and international publications on the subject matter of IT law.</i></p>
9:00	<p><b>Workshop Topic 1: The Legal Considerations for Cyber &amp; Information Security</b></p> <p>Having worked in both the corporate environment and now in academia, Verine will discuss the legal position relating to operating internal and outsourced IT Security and Data Protection/Privacy roles. Outlining the history of data protection, this session will provide the foundation for the following sessions on POPIA, GDPR and US Privacy Shield, allowing you the opportunity to voice where you're experiencing</p>
10:30	<b>Morning Tea &amp; Networking</b>
11:00	<p><b>Workshop Topic 2: POPIA – the when and how?</b></p> <p>Vagaries of regulator-speak have left most South African businesses confounded as to the implementation of POPIA. Several burning questions will be asked and answered during this session: are you compliant (should you be); when is the POPI commencement date or POPI effective date for the rest; what is the relationship to GDPR – surely the one covers the other, right? Drawing on several case studies, the session will also detail the Information Regulator's final POPI Regulations, implementation strategies, and making use of an easy to interpret framework that the rest of the business can understand.</p>
12:30	<b>Lunch &amp; Networking</b>
13:30	<p><b>Workshop Topic 3: Lifting the veil of GDPR</b></p> <p>Having come into effect GDPR has brought up several misunderstandings and contradictions, particularly from a South African and indeed continent-wide perspective. This session will further go into detail on key GDPR definitions and principles; consent, contracting and legal obligations; individuals' rights; the impact of data protection on business; GDPR in international, indeed African, context; data breaches and possible exemptions.</p>
15:00	<b>Afternoon Tea &amp; Networking</b>
15:30	<p><b>Workshop Topic 4: US Privacy Shield in Context</b></p> <p>We've covered local regulation, GDPR, and now US data privacy frameworks. Again drawing on case material, how does the US Privacy Shield influence GDPR, what are its different components, is this a play to assert global data control, and what are the criticisms of the system? This session will also provide a summary of the previous sessions in context.</p>
17:00	<b>End of Focus Day</b>

# CISO Africa Cape Town

## Main Conference Agenda

7-8 August 2019 | CTICC, Cape Town

### DAY ONE – 7 AUGUST

7:30	<b>Registration Opens</b>
8:45	<b>Welcome &amp; Opening Remarks</b>
9:00	<b>RESERVED FOR LEAD PARTNER</b>
9:30	<p><b>Keynote: Why IT Security Needs to be Prioritised at Board Level</b></p> <ul style="list-style-type: none"> <li>Why understanding threats and vulnerabilities is critical to modern leadership</li> <li>Cyber-crime is local – why phishing and hacks are closer to home</li> <li>Where should South African and African companies be prioritising IT Security – is it one size fits all?</li> <li>Why we should collaborate more, across industries and jurisdictions</li> </ul> <p><b>Julian Ramiah</b>, <i>Group Chief Information Security &amp; Privacy Officer, Liberty</i></p>
10:00	<p><b>International Keynote: Managing Cyber Security at East Africa's Largest MNO</b></p> <ul style="list-style-type: none"> <li>Overview the Kenyan market, corporate culture and the impact of mobile</li> <li>Typical domestic and international threats</li> <li>Regulatory concerns, data protection and security</li> <li>Threats to infrastructure, threats to customers, threats to corporates</li> </ul> <p><b>Anthony Gacanja</b>, <i>Head of Technology Security, Safaricom (Kenya)</i></p>
10:30	<p><b>International Keynote: IT Risk &amp; Compliance Environment for East African Financial Services</b></p> <ul style="list-style-type: none"> <li>Overview of the regulatory environment in Tanzania and East Africa</li> <li>What are the risks to non-compliance</li> <li>Technical and talent problems and pitfalls – where are the opportunities to make improvements, and how?</li> <li>Seeking domestic and internal collaboration to improve the status quo</li> </ul> <p><b>Lusekelo Thompson</b>, <i>Head of IT Risk &amp; Compliance, NBC Bank (Tanzania)</i></p>
11:00	<b>Morning Tea &amp; Networking</b>
11:30	<b>RESERVED FOR ASSOCIATE PARTNER</b>
12:00	<p><b>Keynote: Information Security &amp; Data Governance in the Medical Sector</b></p> <ul style="list-style-type: none"> <li>Protecting clients most sensitive data and the need to comply with international legislation</li> <li>Driving organisational change to improve governance, and readily available information</li> <li>What would the consequences be of a data breach within the group</li> <li>Safeguarding compliance across multiple territories</li> </ul> <p><b>Nhlanhla Xaba</b>, <i>IT GRC &amp; Security Director, Mediclinic</i></p>
12:30	<p><b>Keynote: Protecting your Customers Money, Data &amp; Time</b></p> <ul style="list-style-type: none"> <li>How do you build an effective and proactive strategy in the complex world of cyber risk?</li> <li>Are your security investments fixing the right problems?</li> <li>Learning from building a strategy across 18 different territories.</li> </ul> <p><b>Robin Barnwell</b>, <i>Head: Security Strategy Enablement, Standard Bank</i></p>
13:00	<b>RESERVED FOR ASSOCIATE PARTNER</b>

# CISO Africa Cape Town

## Main Conference Agenda

7-8 August 2019 | CTICC, Cape Town

13:30	<b>Lunch &amp; Networking</b>	
	<b>Stream A1: Strategy</b>	<b>Stream B1: GRC</b>
14:30	<p><b>RESERVED FOR ITR TECHNOLOGY</b></p>	<p><b>Discussion Group: GRC &amp; Corporate Culture</b>  <i>The way in which we do business is changing rapidly. Are internal audit and GRC teams keeping up with these emerging trends (digital transformation)? How can you make compliance 'attractive' to the rest of the business? Do you agree that organizational governance needs to be integrated into company culture – how so?</i>  <b>Percy Ramokone</b>, Head: GRC, Reporting &amp; Strategy Management, South African Reserve Bank</p>
15:10	<p><b>Discussion Group: Can you Prioritise Business Strategy Over Operational Security?</b>  <i>The relationship between business and operations is not always harmonious. How does one prioritise the availability of assets to the confidentiality of data? Discussions will focus on corporate culture, access control case studies and high-level learning education programmes.</i>  <b>Darryl Potgieter</b>, Head of Architecture &amp; Security, Sappi</p>	<p><b>Discussion Group: Determining Corruption Risks</b>  <i>What is the current state of Anti-Corruption laws in South Africa, Africa and the rest of the world? How does corruption risk fit into the governance framework and enterprise risk management?</i>  <b>Prasantha Maistry</b>, Head of Fraud Compliance, Discovery Bank</p>
15:50	<b>Afternoon Tea &amp; Networking</b>	
	<b>Stream A2: Strategy</b>	<b>Stream B2: GRC</b>
16:20	<p><b>Discussion Group: Cyber Risk Culture &amp; Psychology</b>  <i>In light of increased scrutiny on data protection, security and access, how do you engage with multi-national, multi-cultural, geographically diverse offices?</i>  <b>Siegfried Moyo</b>, Regional Head of Cyber Security - EMEA, A Leading FMCG Company</p>	<p><b>Discussion Group: Cloud-Ready Data Governance &amp; GRC</b>  <i>More businesses are looking at a cloud or a hybrid approach to managing data. This session will look at some of the data risks associated with the cloud, how is data sovereignty impacted, and what is the role of third party providers.</i>  <b>Ken Chikwanha</b>, Executive Head of Data Governance: Personal &amp; Business Banking, Standard Bank</p>
17:00	<p><b>Discussion Group: Does Outsourcing IT Security Make Sense</b>  <i>Making security a top priority costs time, money and requires a lot more highly-qualified people. Is there an alternative? What do you think are the pros and cons to outsourcing?</i>  <b>Alex Bowdler</b>, IT Operations &amp; Security Manager, Aspen Pharmacare</p>	<p><b>Discussion Group: Risk Based Due Diligence Challenges &amp; Solutions</b>  <i>Due diligence and risk management go hand in hand, but for now how far should your organisation go to shield it from the risk of non-compliance? Is there a moment to pause to see how far down the road you have gone in comparison to others?</i>  <b>Martins Ogbolu</b>, Executive Head of Anti-Corruption Risk, Vodacom</p>
17:40	<b>Cocktail Function &amp; Networking</b>	

# CISO Africa Cape Town

## Main Conference Agenda

7-8 August 2019 | CTICC, Cape Town

### DAY TWO – 8 AUGUST

7:30	<b>Registration Opens</b>
9:00	<b>Welcome &amp; Opening Remarks</b>
9:15	<b>RESERVED FOR ASSOCIATE PARTNER</b>
9:45	<b>How Information Security, Data Protection &amp; Secure IOT Drive Business</b> <ul style="list-style-type: none"><li>Turning security, data privacy and global governance into a business asset</li><li>Why will security become even more integral to overall business strategy</li><li>An overview of the technology being used currently and what lies ahead in future</li></ul> <b>*Speaker to be announced</b>
10:15	<b>Keynote: Why Machines Need Humans – Culture is Not Measured in Terabytes</b> <ul style="list-style-type: none"><li>Continuous education can become tedious, but what can tech do to make it “fun”</li><li>The most sophisticated bit of kit won’t save you from human error, but AI might make it worse</li><li>All of us are on the cloud, why not the business too?</li><li>Multiple access points can lead to disaster, but can you use a carrot and stick method to avoid catastrophe?</li></ul> <b>Steve Jump, Head: Corporate Information Security Governance, Telkom</b>
10:45	<b>Keynote: Cloud Security</b> <ul style="list-style-type: none"><li>What are the risks and benefits to migrating to the cloud?</li><li>Are you open to using third parties?</li><li>Do you have a risk management strategy in place?</li></ul> <b>Suren Naidoo, Head of Enterprise Architecture, Security &amp; GRC, TFG</b>
11:15	<b>Morning Tea &amp; Networking</b>
11:45	<b>Keynote: Data Privacy in the Digital Age</b> <ul style="list-style-type: none"><li>Does compliance equal security</li><li>Don’t be overwhelmed – what are the basics around privacy</li><li>Finding new meaning: Cloud, digitalization &amp; privacy</li><li>Taking a new approach to privacy that is not overtly defensive</li></ul> <b>Zaheera Ahmed, Group Head of Privacy, absa</b>
12:15	<b>Keynote: IT Security &amp; Data Risks within National Government</b> <ul style="list-style-type: none"><li>The government’s approach to IT security and security education across departments</li><li>Data governance, risks and the delicacy of dealing with sensitive information</li><li>Key differences between outcomes of corporate vs government IT security</li><li>Reputational damage vs national security risk</li></ul> <b>Rapule Kgalaki, Deputy Director: Specialised Audit, DIRCO</b>
12:45	<b>Keynote: The Influence of National Culture on Information Security Culture</b> <ul style="list-style-type: none"><li>The dimensions of information security awareness: organisational, public, socio-political, ethical and institutionally educational</li><li>National culture has an impact on organisational culture which has an impact on information security culture; but how can this be managed in a multi-cultural, multi-national organisation?</li><li>What other factors could be at play: generational, economic and over human dynamics</li></ul> <b>Sunthoshan Govender, Enterprise Architect: IT Security &amp; Compliance, AB InBev</b>
13:15	<b>Lunch &amp; Networking</b>

# CISO Africa Cape Town

## Main Conference Agenda

7-8 August 2019 | CTICC, Cape Town

	<b>Stream A1: Strategy</b>	<b>Stream B1: Innovation</b>
14:15	<p><b>Discussion Group: DevSecOps – An Introduction</b>  <i>The purpose of DevSecOps is to create the mindset that everyone is responsible for security, embedding security into the early DevOps workflow. Are your security and dev teams working together?</i>  <b>Tania Paulse</b>, Group Enterprise Architect, Sanlam</p>	<p><b>Discussion Group: Integrating AI into IT Security</b>  <i>This discussion will first look into what the current status of AI, what is reality and what is moonshot thinking. How are the bad guys using bots, and how to hunt them? Are there any data risks to deception tactics? Will AI better orchestrate human intervention, or will machines do more than the grunt work?</i>  <b>Asterico Adams</b>, Head of Information Security, DirectAxis</p>
14:50	<p><b>Discussion Group: Taking DevSecOps to the Next Level</b>  <i>Are you putting your users, or even customers, at the heart of your DevSecOps agenda? What if you're still working in partitioned silos – can design thinking still apply to security?</i>  <b>Quintin Laljit</b>, Programme Manager: IT Security Design Thinking, A Leading Financial Services Firm</p>	<p><b>Discussion Group: Cloud vs On-Premise vs Hybrid</b>  <i>Cloud has its benefits, on-premise storage has its own advantages (perhaps more psychological), but what is the best solution for your business to protect data and sensitive information. Does your ideal scenario not match your corporate status quo?</i>  <b>Lonette Genis</b>, Data Protection &amp; Information Officer, Nacelle</p>
15:25	<b>Afternoon Tea &amp; Networking</b>	
	<b>Stream A2: Strategy</b>	<b>Stream B2: Innovation</b>
15:55	<p><b>Discussion Group: In-depth Look at Cyber Security &amp; Resilience in East Africa</b>  <i>Since the promulgation of the Kenyan Government Cyber Security Strategy, has anything actually happened? This interactive discussion will look into the on-the-ground reality of East Africa's cyber security programmes.</i>  <b>Lusekelo Thompson</b>, Head of IT Risk &amp; Compliance, NBC Bank (Tanzania) ; <b>Anthony Gacanja</b>, Head of Technology Security, Safaricom (Kenya)</p>	<p><b>Discussion Group: New Age of Attacks – From Malware to Crypto-Mining</b>  <i>Hackers are getting smarter, cyber criminals are more organised, more 'legitimised', attacks are increasingly exponentially in scale and substance. Share in your experiences, and consider this: are smarter machines the best line of defense against other smart machines, or is there an unlearnable nuance to human intervention?</i>  <b>Speaker to be announced</b></p>
16:30	<p><b>Discussion Group: Sharing the Burden of Governance, Risk &amp; Compliance</b>  <i>This discussion will look in the roles and responsibilities of all those in the value-chain, including those who straddle the business, risk/compliance and IT security mantle. Is there a one-size-fits-all strategy here?</i>  <b>Karin Kleynhans</b>, Manager: Risk &amp; Compliance Systems, Capitec</p>	<p><b>Discussion Group: Are you Aware you are Under Attack?</b>  <i>This discussion will look at the relationship between tech, talent, awareness and wearing a target on your back. Cities, local government and other state entities are seen as soft targets or a rite of passage for young hackers; often under prepared and under resourced to respond. What solutions could mitigate this increasing problem?</i>  <b>Silas Mhembere</b>, Head of IT Security, City of Cape Town</p>
17:05	<b>CLOSE OF CONFERENCE</b>
