

Kordia Group Environmental Policy Statement

Kordia recognises the importance of maintaining and enhancing the quality of the environment for the benefit of clients, employees and the general community.

We are committed to “zero waste” and “zero harm” to the environment.

We are equally committed to continually improving our environmental performance in the delivery of our services by setting objectives, measuring progress and communicating results.

Kordia’s commitment extends to:

- Comply with or exceed all applicable legal and other mandatory requirements that relate to our environmental, while maintaining and improving our ISO 14001 certified environmental management system in Australia, and seek to attain the same certification in New Zealand in 2020;
- Make business decisions that conserve resources while minimising or eliminating waste or pollution and work towards achieving sustainable development where reasonably practicable to do so;
- Communicate our environmental objectives and expectations to all employees and other stakeholders as appropriate;
- Ensure that all employees, subcontractors, suppliers and consultants are aware of and have the necessary skills to fulfil their environmental obligations to our operations;
- Work with our clients and other stakeholders to help them achieve their environmental objectives and obligations and strive to continually improve our own environmental performance;
- Induct staff to enhance awareness of employee’s environmental obligations.

This policy statement and associated procedures will be reviewed annually, with the aim of maintaining the relevance and responsibility toward of our environmental management within the business.
