

Phil Johnson

Senior Principal, Quality and Compliance Services, IQVIA

Phil is an experienced regulatory and quality based professional who has worked in the Medical Device, In-Vitro Diagnostic and Pharmaceutical Industries for over twenty-five years. His core expertise is in the quality requirements for Medical Devices, Diagnostics and Pharmaceuticals.

Phil has worked on FDA remediation programs in response to warning letters, consent decrees and import bans; providing strategic consulting to companies. He has had several long-term consulting placements within Medical Device, IVD manufacturing and distribution sites and corporate offices.

He also has extensive experience in the application of post market surveillance systems for Complaints Management and Vigilance Reporting.
