

Statement on Coronavirus

NMA continues to closely monitor the ongoing COVID-19 pandemic. We have suspended all in person training and consulting until such time as local and state government stay-at-home and shelter-in-place restrictions are lifted. We are monitoring the restrictions across all 50 states and will be ready to deliver in-person services as soon as we are able.

NMA will return to offering traditional in-person trainings that we have always offered as the pandemic eases. Until that time, we are offering training in a dynamic, live, web-based platform that allows for real time interaction with our trainers. We are committed to ensuring that you continue to receive the same high-quality training experience that you have come to expect from NMA.

NMA's team of consultants remains ready and available to assist your agency with your consulting needs. We are currently providing remote consulting services and can work with your agency to develop a highly effective remote consulting plan. Additionally, when circumstances allow, we will be ready to transition to in-person services where requested.

NMA's remote offerings have been effective in supporting our clients' organizational goals and growth. We will contemplate retaining our remote offerings, as part of our suite of services. Please stay safe and well, and we look forward to seeing you soon.
